mark crossman's text introduces students to argumentation theories associated with testing arguments and reasoning and encourages the use of these tests of arguments during debating the text describes the theories and practices associated with npda style parliamentary debate and provides an overview of the basics of ¶ parli¶ debate burden of proof includes chapters focusing on the following areas the stock issues associated with arguing

propositions of fact value and policy refutation and the strategic considerations pertaining to the duties of the various speakers in a debate and hints for overcoming anxiety to optimize effective delivery the text also provides an overview of forensics competitive speaking and describes each of the major competitive events and tournament procedures written for students in argumentation and debate burden of proof could also be used in any course featuring forensics

the process of argument an introduction is a necessary companion for anyone seeking to engage in successful persuasion to organize construct and communicate arguments it is both comprehensive and accessible an authoritative guide to logical thinking and effective communication the book begins with techniques to improve reading comprehension including guides on navigating through fake news and internet trolls then readers are taught how to reconstruct deductive inductive and abductive presentations so that the logical structure is explicit and finally there is a step by step guide for responding to these texts via the argumentative essay along the way are current examples from social media and elsewhere on the internet along with guides for assessing truth claims in an ever complicated community worldview throughout are carefully selected reading questions and exercises that will pace readers in order to ensure that the text is securely grasped and successfully applied key features offers guidance on how to read a text through self analysis and social criticism provides a step by step procedure for allowing the student to move from reading to reconstruction to being prepared to write an effective argumentative essay presents truth theory and shows readers how they can helpfully acquaint themselves with a version of realistic foundational epistemology offers guidelines and helpful tools on how best to structure an argumentative pro or con essay includes expansive coverage of inductive logic through the use and assessment of statistics covers abductive logic as it applies to the analysis of narrative in argumentative writing has up to date examples from the media including from blogs social media and television includes a helpful glossary of all important terms in the book

contemporary argumentation studies continue a tradition founded by aristotle cicero quintilian and others since the end of the second world war they have been vigorously taken over and reoriented by different schools of thought stressing their link to the renovated disciplines of logic dialectic rhetoric or grammar anscombe blair ducrot van eemeren grize grootendorst hamblin johnson olbrechts tyteca perelman toulmin walton woods and many others have reconceptualized the field reconnected it to contemporary scholarship and opened up rigorous and innovative avenues of research at the turn of the century argumentation in science education and argumentation about socio scientific issues emerged as new fields within the larger area of argumentation studies within this diverse and challenging context this comprehensive dictionary makes a significant contribution to the construction of a common culture and shared vocabulary of argumentation argumentation is approached as an all pervasive linguistic cognitive activity and argumentation studies are posited as a multidisciplinary field this dictionary of argumentation defines 301 concepts the 223 main entries define comment upon and

illustrate a specific concept or a set of interrelated concepts the 78 secondary entries refer to the relevant main entry the relationships between the entries are marked by a system of cross references which strengthen the conceptual coherence of the dictionary as a whole this is the first dictionary of its kind to be published in english

first level of analysis the soundness of arguments second level of analysis the strength of arguments fallacies how arguments go wrong critical practice special fields of reasoning

this book uses logos pathos and ethos in critical thinking active reading and persuasive writing accessible and stimulating the versatile manual can be used as a rhetoric a reader a guide on research writing and a guide on style through its chapters users learn to excel at what they say through our style interchapters users learn to excel at how they say it cheating conservation race politics male female communication styles gun control abortion same sex marriage stem cell research ndash many diverse and mature readings on these subjects engage readers and writers in analytical thinking and stimulate them to react with thoughtful discussions and compositions for individuals who want to communicate clearly argue persuasively and analyze and evaluate what they read

author nicholas capaldi explains the principles behind critical thinking including what the ideal structure of an argument is how the ideal becomes a paradigm for critical thinking and the various ways in which arguments can fail to exemplify this ideal structure

the themes of the essays in argumentation theory and the rhetoric of assent all coalesce around the general question when if ever is assent justified the question immediate triggers complex and multifaceted considerations of argument and ultimately power in parsing out the nature of assent the essays take diverse approaches aesthetic and symbolist rationalistic and formalistic field theory various conceptualizations of a public sphere etc together they offer an insightful exploration of an exciting new terrain argumentation studies

this book is an updated and revised edition of fundamentals of legal argumentation published in 1999 it discusses new developments that have taken place in the past 15 years in research of legal argumentation legal justification and legal interpretation as well as the implications of these new developments for the theory of legal argumentation almost every chapter has been revised and updated and the chapters include discussions of recent studies major additions on topical issues new perspectives and new developments in several theoretical areas examples of these additions are discussions of recent developments in such areas as habermas theory maccormick s theory alexy s theory artificial intelligence and law and the pragma dialectical

theory of legal argumentation furthermore it provides an extensive and systematic overview of approaches and studies of legal argumentation in the context of legal justification in various legal systems and countries that have been important for the development of research of legal argumentation the book contains a discussion of influential theories that conceive the law and legal justification as argumentative activity from different disciplinary and theoretical angles it addresses such topics as the institutional characteristics of the law and the relation between general standards for moral discussions and legal standards such as the rule of law it discusses patterns of legal justification in the context of different types of problems in the application of the law and it describes rules for rational legal discussions the combination of the sound basis of the first edition and the discussions of new developments make this new edition an up to date and comprehensive survey of the various theoretical influences which have informed the study of legal argumentation it discusses salient backgrounds to this field as well as major approaches and trends in the contemporary research it surveys the relevant theoretical factors both from various continental law traditions and common law countries

the elements of arguments introduces such central critical thinking topics as informal fallacies the difference between validity and truth basic formal propositional logic and how to extract arguments from texts turetzky aims to prevent common confusions by clearly explaining a number of important distinctions including propositions vs propositional attitudes propositions vs states of affairs and logic vs rhetoric vs psychology exercises are provided throughout including numerous informal arguments that can be assessed using the skills and strategies presented within the text

junior high aged students will argue and sometimes quarrel but they won t argue well without good training young teens are also targeted by advertisers with a vengeance from billboards to commercials to a walk down the mall fallacious arguments are everywhere you look the art of argument was designed to teach the argumentative adolescent how to reason with clarity relevance and purpose at a time when he has a penchant for the why and how it is designed to equip and sharpen young minds as they live play and grow in this highly commercial culture this course teaches students to recognize and identify twenty eight informal fallacies and the eye catching text includes over sixty slick and clever phony advertisements for items from blue jeans to pick up trucks which apply the fallacies to a myriad of real life situations

this book contains 20 essays tracing the work of david zarefsky a leading north american scholar of argumentation from a rhetorical perspective the essays cohere around 4 general themes objectives for studying argumentation rhetorically approaches to rhetorical study of argumentation patterns and schemes of rhetorical argumentation and case studies illustrating the potential of studying argumentation rhetorically these articles are drawn from across zarefsky s 45 year career many of these articles originally appeared in publications that are difficult to access today and this collection brings the reader

up to date on the topic zarefsky s scholarship focuses on the role of language in political argumentation the ways in which argumentation creates public knowledge and belief the influence of framing and context on what is said and understood the deployment of particular patterns and schemes of argumentation in public reasoning and the influence of debate on politics and governance all these topics are addressed in this book each of the conceptual essays includes brief application to specific cases and five extended case studies are also presented in this volume the case studies cover different themes two explore famous political debates the third focuses on presidential rhetoric across the course of united states history the fourth on the arguments for liberalism at a time of political polarization and the fifth on the contemporary effort to engage the united states with the muslim world this book is of interest to scholars in the fields of philosophy logic law philosophy of law and legal history the range of topics and concepts addressed the interplay of concepts and cases and the unifying perspective of rhetorical argumentation make this book a valuable read for students of argumentative practice whether rhetorically or otherwise
