in fourteen essays supplemented by relevant sections of and amendments to the constitution and five federalist essays by hamilton provides the reader with the essential historical and political analyses of who and what shaped the presidency

a collection of works previously published 1955 1987

in this provocative and readable volume eleven leading constitutional authorities challenge business as usual in american foreign policymaking for far too long they contend americans have acquiesced to presidential claims to sweeping executive powers in foreign affairs thanks to imperial minded presidents a weak willed congress and neglectful scholars these authors forcefully argue that the president is not the supreme crafter of foreign policy and that congress must provide more than a rubber stamp for the president s agenda unilateral presidential control of foreign relations they warn can pose a grave threat to our nation s welfare and is simply without constitutional warrant combining constitutional theory with keen historical insights these authors illuminate the roots of presidential abuse of executive power and remind us of the past and potential costs of such disregard for our unique system of checks and balances an essential guide for all concerned citizens and members of congress this volume should help revive a proper understanding of this crucial dimension of american democracy

political scandals have always demonstrated the capacity of our executive officials for self inflicted injuries and the clinton administration was no exception unilateral warmaking claims of executive privilege and immunity and last minute pardons all tested the limits of presidential power while the excesses of the special prosecutor cast doubts on available remedies for eight years republicans and democrats engaged in guerrilla warfare aimed at destroying the careers and lives of their adversaries while tests of presidential power were resolved by the courts resulting in a reshaping of the scope and power of the presidency itself this book examines the many controversial and important battles that led to the shrinking of the presidency under the law during the clinton administration located at the intersection of law and politics it helps readers understand the dramatic changes that took place in the relationship of presidential power to the law during the clinton years and shows how one president s actions and congressional and legal reactions to them have altered presidential prerogatives in ways that his successors cannot ignore the presidency and the law offers an assessment of changes in constitutional and legal understanding of the american presidency exploring such topics as war power executive privilege pardon power impeachment executive immunity independent counsel and campaign finance in examining these collisions between president and the law its distinguished contributors bring the lessons of watergate and iran contra into the clinton era and contribute to a madisonian view that presidents should not operate outside statutory and constitutional constraints while the essays offer several criticisms of that administration s exercise of power and its interpretation of constitutional provisions and law many of the authors have been supportive of clinton and his policy pursuits and all seek to examine the potential impact of the clinton administration without being predictive or legalistic they offer instead commentary analysis and criticism that examine the legality and constitutionality of president clinton s actions within a broader political and historical context the presidency is constitutionally weaker and politically more vulnerable than the office bill clinton assumed in 1993 and it remains to be seen what impact these changes will have on the presidency in the 21st century this book points the way to assessing that impact and is essential reading for anyone concerned with the future of our

democracy

fisher chronicles the expansion of the president s power to make war

the first book length assessment of coolidge s presidency in thirty years draws on the recently opened papers of his white house physician for hitherto unknown personal information ferrell history indiana u exonerates coolidge for the failures of his party s foreign policy but holds him accountable for having had insufficient economic savvy to warn wall street against the overspeculation that caused the depression annotation copyrighted by book news inc portland or
