for more than 50 years lewis has strived mightily and successfully to explain the cultures and histories of middle eastern peoples to western readers the task of writing a political history of the region has already been fulfilled by him and by many others in his latest work lewis has chosen to accentuate the social economic and cultural changes that have occurred over 20 centuries he ranges from seemingly trivial concerns changes in dress and manners in an arab coffeehouse to earth shaking events the mongol conquest of mesopotamia in painting a rich varied and fascinating portrait of a region that is steeped in traditionalism while often forced by geography and politics to accept change enormously influential history after reading gibbon on muhammad it is tempting to speculate that lewis s long standing interest in the eighteenth century historian may have influenced his own ambition to scan grand horizons his taste for irony and his unmistakably elegant literary style robert irwin

several years after the arab spring began democracy remains elusive in the middle east the arab spring that resides in the popular imagination is one in which a wave of mass mobilization swept the broader middle east toppled dictators and cleared the way for democracy the reality is that few arab countries have experienced anything of the sort while tunisia made progress towards some type of constitutionally entrenched participatory rule the other countries that overthrew their rulersegypt yemen and libyaremain mired in authoritarianism and instability elsewhere in the arab world uprisings were suppressed subsided or never materialized the arab springs modest harvest cries out for explanation why did regime change take place in only four arab countries and why has democratic change proved so elusive in the countries that made attempts this book attempts to answer those questions first by accounting for the full range of variance from the absence or failure of uprisings in such places as algeria and saudi arabia at one end to tunisias rocky but hopeful transition at the other second by examining the deep historical and structure variables that determined the balance of power between incumbents and opposition brownlee masoud and reynolds find that the success of domestic uprisings depended on the absence of a hereditary executive and a dearth of oil rents structural factors also cast a shadow over the transition process even when opposition forces toppled dictators prior levels of
