kindig shows middle school teachers how to integrate student choice into a reading program she outlines principles for identifying books kids will read why choice will help them meet state standards and developmental needs and how to make reading social and meaningful match books to kids prompt discussions and help develop readers

the middle grades years can be a difficult time for young adolescents before students can learn they need to know that you their teacher see them and get them but making connections with students can be challenging what do we need to change in our pedagogy or our teaching styles to relate to our students with a better balance of social emotional care and academic content and how can we do this so we bond with each and every student the advisory pride program offers a way for you to create connections with students helping them feel like they are cared for while helping them develop the soft skills essential for high school and college the advisory pride program has

five themes arranged in three sequences and each chapter includes an overview of the theme a sample agenda activities and formative assessments it is both flexible and turnkey provided by publisher

making math connections integrates mathematics into a variety of subject areas and real life settings providing motivation for students to want to learn the material being presented the book also uses a variety of activities to promote learning for students with different interests and learning styles steven p isaak mathematics teacher advanced technologies academy las vegas nv spark student learning by making an authentic connection between math and real life experiences students often fail to make the connection between school math and their everyday lives becoming passive recipients of isolated memorized rules and formulas this remarkable new resource will help students become active problem solvers who see mathematics as a meaningful tool that can be used outside the classroom hope martin applies more than 40 years of teaching experience to developing a myriad of high interest meaningful math investigations using a teacher friendly format she shows educators how to integrate into the math curriculum engaging everyday topics such as forensics natural disasters tessellations the stock market and literature this project based resource encourages cooperative interactive learning experiences that not only help students make connections between various math skills but also make important connections to the real world aligned to nctm standards these mathematical applications are broken down into complete units focusing on different topics each chapter includes background information on the topic step by step procedures for math investigations assessment strategies journal questions reproducible worksheets additional related readings and internet sites by increasing their awareness of meaningful everyday applications students will learn to use math as an essential tool in their daily lives

each vol a compilation of eric digests

originally published in 2004 a major focus of teacher education is the development of preservice teachers however it should not be the only focus of those who work in teacher education educating inservice teachers is equally important and the conversation among those involved in mathematics teacher education needs to include discussion of this group as well this conversation also highlights a need for professional development for teacher educators and research on the development of teacher educators this monograph discusses issues in educating all of these groups of individuals in an effort to continue the conversation among those involved in mathematics teacher education

this text is designed specifically to meet the needs of preservice teachers who have had little experience working in middle grade classrooms three ideas are central teaching language arts at the middle level is a complex activity that demands expertise in the use of a variety of strategies reading and writing are key processes of language arts study but so are speaking listening and viewing visually representing and teaching the processes of effective communication is crucial but middle school students must also begin to learn the content of the field literature language and media teaching language arts in middle schools gives balanced attention to various teaching strategies processes and content demonstrating how all of these connect to improve students abilities to communicate in this text research and theory are summarized and applied to practice a non prescriptive approach is integrated with practical information debates in the field are acknowledged additional reading and research are

emphasized the author's voice and point of view are explicit

a collection of essays that examine the causes of and provide solutions to the widespread alienation and disconnection that beset modern society since the beginning of the 21st century people have become increasingly disconnected from themselves each other and the world around them a crisis of connection stemming from growing alienation social isolation and fragmentation characterizes modern society the signs of this crisis of connection are everywhere from decreasing levels of empathy and trust to burgeoning cases of suicide depression and loneliness the astronomical rise in inequality around the world has contributed to the critical nature of this moment to delve into the heart of the crisis leading researchers and practitioners draw from the science of human connection to tell a five part story about its roots consequences and solutions in doing so they reveal how we in modern society have been captive to a false narrative that takes individualism as a universal truth the new story now emerging from across the human sciences underscores our social and emotional capacities and needs the science also reveals the ways in which the privileging of the self over relationships and of individual success over the common good as well as the perpetuation of dehumanizing stereotypes have led to a crisis of connection that is now widespread finally the practitioners in the volume present concrete solutions that show ways we can create a more just and humane world this profoundly important book suggests that our innate human determination to bridge differences and live in vulnerable loving relationships is the antidote to rising fear and anxiety lyn mikel brown author of *Powered by Girl*

an accessible guide to creating schedules that amplify school and district priorities support best practices in teaching and learning heighten student engagement and enhance equity a school's schedule can be as important to education outcomes as its budget or strategic plan the secret to making the schedule a tool for school improvement is to approach schedule design not as a technical task centered on making everything fit like tetris blocks but as a strategic one in this book informed by research and their work with hundreds of schools scheduling experts nathan levenson and david james explore how strategic scheduling can turn a good enough schedule into one that supercharges learning and engagement without additional costs or more ftes if you are ready to figure out which schedule type is best for your students and staff disrupt harmful tracking and ensure every student has access to highly skilled teachers and rigorous curriculum deliver optimum hours of core instruction while expanding electives and providing opportunities for student voice and choice precisely match staffing to course enrollment to free up personnel and funds for other purposes find time for critical intervention and enrichment blocks and communicate scheduling decisions more effectively to parents families and district leaders then it's time for strategic scheduling offering targeted advice for best practice scheduling at the elementary middle and high school levels this book will help school and district leaders and the teachers and students they serve make the most of every school day and every school year

bringing together the voices of researchers and teachers this volume addresses how teachers connect theory to practice in the middle school english language arts education setting and explores how to teach and engage with young adults in a way that treats them as ethical and thoughtful citizens the book bridges the gap between educational theory and real world implementation and covers a range of timely topics in middle level education through a focus on text choice

identity and practice contributors acknowledge and balance the challenges associated with the reality of teaching including time constraints sudden shifts and fast paced work with real world guidance on key topics such as supporting multilingual students queering middle grade pedagogies teaching diverse texts examining racial bias in the classroom and critical digital literacy ideal for courses on middle level education and literacy education this book encourages and equips pre service teachers to engage in meaningful conversations with their students that foster reflection and transformative learning

this text is based on the idea that students learn more and are more motivated to learn when they are able to connect their own knowledge observations ideas imagination and emotions with the content at hand the cd uses video footage that can be shown to illustrate the concepts presented in the book and stimulate class discussion
