originally published in 1968 the contribution of eighteenth century englishmen to the study of
 medieval life and literature is fairly well known but it is commonly assumed that in france the
 center of enlightenment no one with the exception of a few obscure antiquarians was
 seriously interested in the middle ages gossman argues that the enlightenment gave great
 impetus to medieval studies in france and altered their orientation removing them from the
 realm of legal and ecclesiastical dispute and bringing them into a new framework of general
 history concentrating his investigation of enlightenment medievalists on the most influential
 of them la curie de sainte palaye gossman describes sainte palaye s social and intellectual
 milieu and follows him in his relations with scholars and philosophes in france and abroad
 voltaire montesquieu gibbon walpole muratori and herder are some of the figures whose
 paths crossed that of sainte palaye far from being opposed to philosophie the medievalists
 were gossman argues nourished at the same intellectual sources and shared many of the
 values of the philosophes the existence of a close connection between medievalism and the
 enlightenment is substantiated by the author s detailed analyses of sainte palaye s work in the
 history literature and language of the french middle ages although sainte palaye had a

surprising influence on the literature and historiography of both the eighteenth and nineteenth centuries in France, England, and Germany. Eighteenth-century medievalism, Gossman argues, is best understood not as anticipation of things to come but as part of a complex of ideas and feelings peculiar to the enlightenment itself.
