this volume include those on initiation pre natal rites religious processions royal consecration rituals which mark the commencement of ritual rituals of devotion and vedic sacrifice as well as contributions which address the broader theoretical issues of engaging in the study of ritual texts and ritual practice both from the etic and the emic perspective these studies show that any study of the relationship between the text and the context of rituals must also allow for the possibility that different categories of performers can and do subjectively constitute the relationship between their ritual knowledge and ritual practice between text and context in differing and nuanced ways

the real history of man is the history of religion the truth of the famous dictum of max muller the father of the history of religions is nowhere so obvious as in tibet western students have observed that religion and magic pervade not only the forms of tibetan art politics and society but also every detail of ordinary human existence and what is the all pervading religion of tibet buddhism of that country has been described to us of course but that does not mean the question has been answered the unique importance of stephan beyer's work is that it presents the vital material ignored or slighted by others the living ritual of tibetan buddhists the made a witness to cultic proceedings through which the author guides him carefully he does not force one to accept easy explanations nor does he direct one's attention only to aspects that can be counted on to please he leads one step by step without omitting anything through entire rituals and interprets whenever necessary without being unduly obtrusive oftentimes as in the case of the many hymns to the goddess tara the superb translations speak directly to the reader and it

is indeed as if the reader himself were present at the ritual
