this updated edition provides an ideal teaching text for first year university and college courses

over a million copies sold worldwide the indispensable guide to understanding the world we make and the lives we lead this thoroughly revised and updated ninth edition remains unrivalled in its vibrant engaging and authoritative introduction to sociology the authors provide a commanding overview of the latest global developments and new ideas in

this fascinating subject classic debates are also given careful coverage with even the most complex ideas explained in a straightforward way written in a fluent easy to follow style the book manages to be intellectually rigorous but still very accessible with a strong focus on interactive pedagogy it aims to engage and excite readers helping them to see the enduring value of thinking sociologically the ninth edition includes a solid foundation in the basics of sociology its purpose methodology and theories up to the minute overviews of key topics in social life from gender personal life and poverty to globalization the media and politics stimulating examples of what sociology has to say about key issues in our contemporary world such as climate change growing inequality and rising polarization in societies across the world a strong focus on global connections and the ways that digital technologies are radically transforming our lives quality pedagogical features such as classic studies and global society boxes and thinking critically reflection points as well as end of chapter activities inviting readers to engage with popular culture and original research articles to gather sociological insights the ninth edition sets the standard for introductory sociology in a complex world it is the ideal teaching text for first year university and college courses and will help to inspire a new generation of sociologists

authored by four leading scholars and teachers introduction to sociology provides an authoritative introduction to basic concepts major theories and current research in a streamlined easy to navigate format a consistent four part chapter structure makes the reading manageable without sacrificing coverage while inquisitive norton's award winning adaptive learning platform helps ensure students are mastering the content at the end of every chapter a discussion of unanswered questions highlights the power of the sociological imagination to help us better understand our complex society

whilst particularly useful as a companion to the sixth edition of giddens's sociology the reader is designed for use independently or alongside other textbooks

in this book anthony giddens addresses a range of issues concerning current developments in social theory relating them to the prospects for sociology in the closing decades of the twentieth century composed of closely integrated papers all written over the past few years the book includes seven essays not previously published plus two have not appeared in english before in assessing the likely future evolution of sociology in particular and the social sciences in general the author both draws upon ideas established in his more abstract theoretical writings and examines critically competing traditions of thought those looking for an accessible introduction to giddens's writing will find in this book a set of

clear expositions of his basic ideas by situating these ideas in relation to the critical assessment of the views of others however the author provides new sources of insight into the distinctiveness of his own claims

an affordable no nonsense introduction to sociology for today s students

social life is in a constant process of change and sociology cannot afford to stand still sociology today is theoretically diverse covers a huge range of subjects and draws on a broad array of research methods central to this endeavour is the use of core concepts and ideas which allow sociologists to make sense of societies though our understanding of these concepts is constantly evolving and changing this clear and jargon free book introduces a careful selection of essential concepts that have helped to shape sociology and others that continue to do so going beyond brief dictionary style definitions anthony giddens and philip w sutton provide an extended discussion of each concept which sets it into historical and theoretical context explores its main meanings in use introduces some relevant criticisms and points readers to its ongoing development in contemporary research and theorizing organized in ten thematic sections the book offers a portrait of sociology through its essential concepts ranging from capitalism identity and deviance to citizenship the environment and intersectionality it will be essential reading for all those new to sociology as well as those seeking a reliable route map for a rapidly changing world

sociology a brief but critical introduction offers a lively discursive and jargon free introduction to sociology accessible to the lay reader as well as to the student it incorporates discussion of recent developments in both social theory and empirical social research developments to which giddens has directly contributed

regarded as the most authoritative introduction to contemporary sociology essentials of sociology adds a new author to its team with the second edition

anthony giddens is one of the world s most prominent and prolific sociologists and yet he is also a difficult study for the beginning student of sociology this is the first introduction to the work of giddens including the major part of his sociological and social theoretical project the author traces giddens development from the late sixties to the nineties in a straightforward readable style covering all parts of giddens s sociology in a well arranged summary also featured is a lengthy interview with giddens by the author and the most comprehensive giddens bibliography to date

the textbook and readings that teach students how issues in our global society connect to their own lives

anthony giddens has been in the forefront of developments in social theory for the past decade in the constitution of society he outlines the distinctive position he has evolved during that period and offers a full statement of a major new perspective in social thought a synthesis and elaboration of ideas touched on in previous works but described here for the first time in an integrated and comprehensive form a particular feature is giddens s concern to connect abstract problems of theory to an interpretation of the nature of empirical method in the social sciences in presenting his own ideas giddens mounts a critical attack on some of the more orthodox sociological views the constitution of society is an invaluable reference book for all those concerned with the basic issues in contemporary social theory

this book is built upon a series of critical encounters with major figures in classical and present day social and political thought the volume offers not only a challenging critique of major traditions of social and political analysis but unique insights into the ideas which anthony giddens had developed over the past two decades

a rigorous but accessible introduction to giddens work including a critical assessment of his writings on the third way

is there a future for sociology to many sociology seems to have lost its way born of the ideas of auguste comte in the nineteenth century sociology established itself as the science of modernity linked to a progressive view of history yet today the idea of progress has more or less collapsed with its demise some say sociological thought has moved to the margins of contemporary intellectual culture in this book the author challenges such an interpretation showing that sociology continues to hold a central position within the social sciences looking both to the past of sociology and the diversity of intellectual trends found in the present day giddens explores many aspects of the sociological heritage comte durkheim parsons marshall and habermas are among the figures covered giddens also connects sociological work directly to current political issues and places the discipline of sociology in the context of broad questions of social and political theory this book will be of interest to undergraduates and professionals in the fields of sociology anthropology and political science
