as i sit here to begin telling the story of my life that i call in search of the meaning of life an autobiography i aim to trace this singular thread of searching that has remained constant in my life of adventure my life has been a mosaic of many independent events that on face value appear to have nothing in common that is when viewed from the outside one must always remember to avoid drawing conclusions from appearances alone when i view the events of my life from the inside there is a great consistency and commitment to this search for meaning in my life it is no small miracle that i have survived my adventures to this day to be able to tell my story and it is by the grace of god alone that i ve reached this point in my life to share my hopes dreams journeys and adventures with you my journeys and adventures officially started the day i intentionally stepped off the well worn path of life and onto the path less traveled it was a deliberate and calculated decision and my life has never been the same since it has not been an easy life for once the comfort of the path well traveled is left behind there are few signposts to follow and no maps to guide you uncharted territory as they say and not without its pitfalls danger and misfortunes i often wondered if this path would ever lead me back to the safety and comfort of the familiar again in some ways it has and in other ways it hasn t but the great adventure i began in 1976 has never really ended for me over all these many years i will be traveling this path less traveled in my continuing search for the meaning of my life right up to the very end

excerpt from the story of a musical life an autobiography october 1 1888 was the fiftieth anniversary of my leaving home to commence my musical life on that occasion we had a family gathering at which were commenced the series of narrations which have grown into this book they were mostly written in 1889 and that will account for the mention of the names of some people who have died since that time special prominence could have been given in this work to the orderly arrangement of such musical statistics and items of musical history as come within its scope but such a plan would have interfered with my story as such so those matters have been allowed to come in as wanted without reference to their chronological order i do not like the appearance of self praise that i have to assume while recording in this book certain sayings and events which refer to myself and my career i hope the reader will see that my story would not be complete without them and on that ground excuse the apparent egotism about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

many autobiographers share profound questions about human life with their readers questions like to what extent was my life imposed on me to what extent did i bring it about through particular choices and actions through the activity of my own will indeed the issue of the will is central to

autobiographical writing and some of the greatest autobiographies give extended consideration to the will its nature its powers its limitations the forms of freedom constraint and expression it finds in various cultures its role in particular human lives in this new study unprecedented in subject and scope richard freadman offers the first sustained account of how changing theological philosophical and psychological accounts of the human will have been reflected in the writing of autobiography and of how autobiography in its turn has helped shape various understandings of the will early chapters trace narrative representations of the will from antiquity the greeks and augustine to postmodernism derrida and barthes with particular emphasis on late modernity s culture of the will later chapters then present detailed and powerfully original readings of autobiographical texts by louis althusser roland barthes b f skinner ernest hemingway simone de beauvoir arthur koestler stephen spender and diana trilling freadman s interdisciplinary approach to autobiography and the will includes a theoretical defense of the view that autobiographers are in varying degrees agents in their own texts threads of life argues that late modernity has inherited deeply conflicted attitudes to the will freadman suggests that these attitudes now deeply embedded in contemporary cultural discourse need reexamining in this he contends reflective autobiography has an important part to play
