modern christians have been bombarded by objections launched against the christian faith from popular secular authors bloggers and stars from the entertainment industry the church is quickly beginning to acknowledge the need for apologetics due to the number of youth and adults alike leaving the faith but how does one respond to these objections for the laity of the church this is especially difficult as many are left without the proper training to know how to answer these objections in the layman s manual on christian apologetics the essentials of apologetics are taken from the ivory towers of academia and are made available to those who have not obtained seminary training or for those thinking about attending seminary in this book three major areas of apologetics are covered the first unit engages the nature of truth and what can be known the second unit deals with the existence of god and issues involving god s existence the last unit tackles historical objections to the resurrection of jesus and early christianity the layman s manual on christian apologetics delivers heavy apologetic issues with the laity in mind and blends in personal illustrations to make the material applicable

the greatest teacher of philosophy in all of history was socrates according to philosopher peter kreeft in 2 400 years no one has topped him or his socratic method teaching not by monologue but by dialogue not by lecturing but by logical questioning yet of the hundreds of textbooks for beginning philosophers today none uses his method kreeft has imagined socrates university a log with socrates at one end and a typical intelligent modern student beginner at the other conversing about the problems at the heart of each major division of philosophy nothing teaches more effectively than concrete examples and apprenticeship like the real socrates this fictionalized version by kreeft is grounded in common sense and commonsense logic fair and open minded on
