holiness is the attribute most emphatically ascribed to god in scripture but there has been little attention devoted to characterizing and considering the entailments of divine holiness in divine holiness and divine action mark c murphy defends an account of holiness indebted to rudolf otto s description of the experience of the holy as that of a mysterium tremendum

et fascinans god's being holy consists in god's being someone with whom intimate union is both extremely desirable for us and yet something for which we and indeed any limited beings are unfit this notion of divine holiness is useful for addressing disputed theological questions regarding divine action in contrast to standard accounts of divine action that begin with assumptions regarding god's moral perfection or god's maximal love the appeal to divine holiness supports a rival framework for explaining and predicting divine action the holiness framework according to which god is motivated to act in ways that are a response to god's own value by keeping distance from that which is deficient defective or in any way limited in goodness this study exhibits the fruitfulness of a reorientation from the morality and love frameworks to the holiness framework by showing how such a reorientation suggests distinct approaches to perennial problems of divine action regarding creation incarnation atonement and salvation from the treatment of these perennial problems a general theme regarding divine action emerges that god's interaction with the world exhibits a radical sort of humility

this book analyzes the relationship between forgiveness atonement and reconciliation from a christian theological perspective drawing on both theological and philosophical literature it addresses the problem of whether atonement is required for forgiveness and considers important related concepts such as sin and justice the author develops a sacrificial model of atonement that connects an understanding of christian forgiveness with the biblical narrative of christ's sacrifice and makes reconciliation between god and humanity possible offering a fresh and coherent argument the book will be relevant to scholars of christian theology biblical studies and the philosophy of religion

this book is the second of two volumes collecting together michael c rea s most substantial work in analytic theology the first volume contains essays focused on the nature of god this second volume contains essays focused more on doctrines about humanity the human condition and how human beings relate to god

the history of christianity includes many doctrines adopted and actions taken to meet immediate problems but which had unintended consequences they are bad fruit matt 7 15 20 the oldest is antisemitism which arose from the competition of the early church with early judaism it was built into the new testament and was developed by the church fathers having learned to dehumanize it was easy to apply the same techniques to other groups the church became complicit with enslavement misogyny and other forms of oppression one response to the bad fruit is to reject religion in the manner of christopher hitchens however the dogmas are part of our culture even if in secular form if the roots of marginalization are not understood they cannot be eliminated this work uses a range of critics and defenders of traditional western christianity to identify poisonous fruits and detoxify them the critical voices do not create a consensus nevertheless a core can be perceived what erasmus called the few truths grounded in the religious tradition they can be shared with secular people as a basis for an

ethical merciful and respectful society although the history of christianity is bloody there are ways to go forward
