this comprehensive explanation of the u s government's role in economics will be an eye opener for anyone who wants to understand exactly what the government does and doesn't do

in this most critical area most people including many economists are not aware of the great variety of crucial tasks and invaluable analyses undertaken by government economists this three volume set will fill that gap with an all encompassing overview of the major economics related work the government performs across all of its agencies and offices with 45 chapters written by 61 leading experts the work covers every major topic in government economics including such diverse areas as monetary policy defense spending social assistance international trade antitrust and environmental protection in addition to entries by those who teach economics the compendium also features candid observations from government insiders to help readers grasp how things really work but readers will not only gain insight into specific fields and topics they will also be able to better understand the big picture and how its pieces fit together this unique and far reaching set often challenges conventional wisdom even as it presents a novel synthesis of the government s research analysis and actions

states that governments have been taking control of activities public goods public utilities welfare and local government services which would have been better left to the private sector this book argues that attempts to correct market imperfections have created over government

public finance is an important branch of economics over the years it has become more important more controversial and more complex much of the academic writing on it is highly theoretical and it is often done by economists who have had little real world experience vito tanzi has been continually engaged in this field for almost six decades as a professor of public finance a practitioner of it in many countries and as a researcher and has witnessed first hand the growing gap between theoretical work and the real life practice of public finance public finance has come to be increasingly influenced by the pursuit of multiple government goals and by the growing complexity that now characterizes fiscal policy and government programs in many countries notably the goal of simplicity has played only a small role in the practice of public finance and in academic work complexity puts a dense fog around many policies making it difficult to predict and assess the results this book aims to highlight to both economists and policymakers the need for simplicity in policies it also aims to inform students of public finance and public policy about this growing problem and the need to pay more attention to it

in the today s global commercial society an inquiry into the economic role of government is gaining momentum many crucial goods for the wellbeing of a society are not commercial

national security and clean air are great examples this means that the economic role of government is not limited to cure the so called market failures but it has to provide for non commercial goods unfortunately in the last few decades the decline of the political economic culture of western post industrial societies has left scope for people to blindly believe in a free deregulated market this book brings the culture of the state in from the cold by confronting readers at the start with the necessity of recognizing the fundamental difference between private commercial interests whose provision rests on the culture of profit and public shared interests whose provision rests on the culture of the state this book also explores how much individual wellbeing does depend on both the only chance for public shared interests with their non profit nature to successfully keep their ground in the face of the overwhelming power of private commercial financial interests lies in regenerating a political economic state culture whereby governments and policy makers politicians understand their responsibility and social function to consist primarily in pursuing the satisfaction of the formers and not in acting on behalf of the latter
