some things seem so obvious that they don't need to be spelled out in detail or do they in computing at least and probably in any discipline where accuracy and precision are important it can be quite dangerous just to assume that some given concept is obvious and indeed universally understood serious mistakes can happen that way the first part of this book discusses features of the database field equality assignment naming where just such an assumption seems to have been made and it describes some of the unfortunate mistakes that have occurred as a consequence it also explains how and why the features in question aren't quite as obvious as they might seem and it offers some advice on how to work around the problems caused by assumptions to the contrary other parts of the book also deal with database issues where devoting some preliminary effort to spelling out exactly what the issues in question entailed could have led to much better interfaces and much more carefully designed languages the issues discussed include redundancy and indeterminacy persistence encapsulation and decapsulation the acid properties of transactions and types vs units of measure finally the book also contains a detailed deconstruction of and response to various recent pronouncements from the database literature all of them having to do with relational technology once again the opinions expressed in those pronouncements might seem obvious to some people to the writers at least presumably but the fact remains that they're misleading at best and in most cases just flat out wrong

this pocket sized book is the first osteopathic clinical manual to be organized by diagnoses in a two page quick reference format in the tradition of the 5 minute consult series each diagnosis is presented on a two page spread the first page has a definition of the disease a list of associated autonomic and motor innervations and a list of common somatic dysfunctions the second page lists the techniques that might be used for those somatic dysfunctions the second page is further subdivided into three levels of treatment 2 minute 5 minute and extended next to each technique is the corresponding icd 9 code for billing photos and schematic drawings are included the fully searchable online
