starting from the premise that each person develops a unique and personal code for communication christopher brumfit examines the roles of teachers and learners and the approaches that education professionals should develop in support of learners the book draws upon linguistic psychological philosophical and sociolinguistic principles and uses practical

examples from second foreign and mother tongue teaching it attempts to integrate theoretical and empirical work with the practical needs of institutions and of teachers without losing sight of learners needs for free personal choice combined with effective communication drawing upon the author s extensive experience in the field it considers the roles of literature and culture as well as language policy in relation to learners rights and attempts to outline a humane and realistic philosophy for language teaching

this text goes back to basics by investigating fundamental assumptions about the way english should be defined and taught as a foreign language it looks at different attitudes to english teaching and critically examines proposals for course content

this book is about the worlds and conflicts of tesol teachers and researchers whose professional lives are both enriched and problematized by the cultural and political interfaces created by working with an international language central to this discussion is the balance of power in classroom and curriculum settings the relationship between language culture and discourse and the change in the ownership of english

h g widdowson has played an important and pioneering role in the development of communicative language teaching theory this book develops a rational approach to the teaching of language as communication based on a careful consideration of the nature of language and of the language user s activities it provides a lucid guide through a subject which is often confused and misrepresented while providing a stimulus to all language teachers to investigate the ideas that inform their own practices

this book takes cultural knowledge in language learning not only as a necessary aspect of communicative competence but as an educational objective in its own right if the aim of foreign language education is to foster cross cultural awareness and self realization language pedagogy needs to come to grips with a range of fundamental issues what do we mean by cultural context can discourse practices be taught like rules of grammar what role does literature play in the development of second language literacy how can learners acquire both an insider s and an outsider s understanding of the foreign culture as expressed through its language by exploring these and other issues the book can help language teachers reflect on their profession and place it within its larger societal and educational context in turn they can help learners become not only skilful users of the language but also active architects of a new cross cultural world order
