History of the United States *John Tosh John Tosh John Tosh John Tosh Henry Fielding Carol Kammen William H. McNeill Edward L. N. Glass Samuel Rawson Gardiner Frederic Louis Huidekoper William Allan Neilson Walter Rundell Martin John Spalding Sir John William Kaye Edward Sylvester Ellis Arrian*

this classic introduction to the study of history invites the reader to stand back and consider some of its most fundamental questions what is the point of studying history how do we know about the past does an objective historical truth exist and can we ever access it in answering these central questions john tosh argues that despite the impression of fragmentation created by postmodernism in recent years history is a coherent discipline which still bears the imprint of its nineteenth century origins consistently clear sighted he provides a lively and compelling guide to a complex and sometimes controversial subject while making his readers vividly aware of just how far our historical knowledge is conditioned by the character of the sources and the methods of the historians who work on them the fifth edition has been revised and updated throughout with the addition of new sections on global history comparative history postcolonialism women s and gender history oral history and memory lucid and engaging this new edition retains all the user friendly features that have helped to make this book a favourite with both students and lecturers including marginal glosses illustrations suggested further reading and boxed guides to key events and people

this study examines questions about historians and their work why do we study history how do we construct our knowledge of the past what are the limitations of historical evidence and what different kinds of history are being written today

this classic introduction to the study of history invites the reader to stand back and consider some of its most fundamental questions what is the point of studying history how do we know about the past does an objective historical truth exist and can we ever access it in answering these central questions john tosh argues that despite the impression of fragmentation created by postmodernism in recent years history is a coherent discipline which still bears the imprint of its nineteenth century origins consistently clear sighted he provides a lively and compelling guide to a complex and sometimes controversial subject while making his readers vividly aware of just how far our historical knowledge is conditioned by the character of the sources and the

methods of the historians who work on them history does not stand still and this updated seventh edition deals with complex and wide ranging material in a clear and accessible way that is up to date with current historiographical trends a fuller treatment is given to the importance of digitization both in the section on source criticism and in relation to public history reflecting its growing importance within historical study both the text and references have been expanded to include a fuller range of both american and global scholarship and the book concludes with a forthright reminder that historical perspective illuminates major problems in the present lucid and engaging this edition retains the user friendly features that make it a favourite with both students and lecturers including marginal glosses illustrations and suggestions for further reading along with its companion website this is an essential guide to the theory and practice of history

in this work readers can discover the role local historians play find out what the experts see as the values of the local history while exploring their theories and see how local history has been practised by those who have dedicated their lives to it

remind s us that all humankind has a shared past and particularly with regard to its choice of weapons and warfare a shared stake in the future stuart rochester the washington post book world in this magnificent synthesis of military technological and social history william h mcneill explores a whole millennium of human upheaval and traces the path by which we have arrived at the frightening dilemmas that now confront us mcneill moves with equal mastery from the crossbow banned by the church in 1139 as too lethal for christians to use against one another to the nuclear missile from the sociological consequences of drill in the seventeenth century to the emergence of the military industrial complex in the twentieth his central argument is that a commercial transformation of world society in the eleventh century caused military activity to respond increasingly to market forces as well as to the commands of rulers only in our own time suggests mcneill are command economies replacing the market control of large scale human effort the pursuit of power does not solve the problems of the present but its discoveries hypotheses and sheer breadth of learning do offer a perspective on our current fears and as mcneill hopes a ground for wiser action mr mcneill s comprehensiveness and sensitivity do for the reader what henry james said that turgenev s conversation

did for him they suggest all sorts of valuable things this narrative of rationality applied to irrational purposes and of ingenuity cannibalizing itself is a work of clarity which delineates mysteries the greatest of them to my mind is why human beings have never learned to cherish their own species naomi bliven the new yorker
