the current success rate for addiction treatment is less than 30 percent which means that 7 out of 10 recovering addicts are not being cured of the so called disease of addiction why doesn't treatment work the answer is simple addiction is not a disease in fact the mainstream mythology of once and addict always and addict falls apart upon close inspection therefore addictive behaviors

must be evaluated within the context of not sickness but sin through the study of the bible so called addicts can learn how to achieve forgiveness of their sins and deliverance from their addictions by offering their hearts minds and bodies to jesus christ they can then be taught how to take advantage of the powerful indwelling presence of the holy spirit to wage war against their persistent addictive thoughts ultimately this study has been designed to help substance abusers to focus their minds on god instead of chemicals in order to subdue their stubborn cravings for the seductive forbidden fruit of intoxication

40 days in the wilderness is an addiction recovery devotional and bible study program designed to be used by churches counselors church home groups existing addiction recovery programs and groups homeless shelters jail and prison ministries and chaplains as well as by individuals seeking god s direction through scripture in defeating satan s bondage of addictions to drugs and alcohol each day s devotional message and accompanying scripture readings can be carried over into additional bible studies on that day s topics depending on how much time someone wants to allocate or devote to the program it is recommended that the program be finished in 40 days to better benefit from each previous day s message however it will be better to finish the devotionals rather than give up because you can t get it done in forty days if extending it to a 20 or 40 week program better fits your schedule there may be a bigger benefit in having a full week to reflect on the day s reading topic and scripture and practicing what you re learning could be a powerfully transforming experience as well 40 days in the wilderness offers you an opportunity to be mentored by someone who has been saved and sober for 32 years has facilitated hundreds of addiction recovery meetings in and out of many churches has written several books on the subject and maintains several websites on the subject of addiction recovery in the church however my experience will be futile if you don t take my suggestions to jesus in prayer for his confirmation i suggest that you be as the bereans did in acts 17 11 in all that you do in life to protect yourself from all the deception in the world the fundamental message in this program is found in matthew 6 33 kjv but seek ye first the kingdom of god and his righteousness and all these things shall be added unto you god won t mislead you man most assuredly will whenever you let your guard down man has been misleading millions of alcoholics and addicts around the world for decades in and out of addiction recovery programs because of the absence of jesus christ in those programs 40 days in the wilderness puts jesus christ at the forefront of each day s devotional

the roots of the modern disease theory of addiction can be traced back to the archaic medical philosophies of the eighteenth century this popular theory is based primarily on the assumption that so called addicts are physically unable to resist the call of addictive chemicals they are presumably stricken from birth with this unlucky condition and all but helpless in the fight against the unhealthy symptoms of the so called disease the problem is that contemporary addiction research shows that substance abusers are not genetically or biologically different from anyone else in fact a growing group of physicians and researchers contend that addicts are simply guilty of making self destructive choices in response to the commonplace stresses of everyday life when addicts begin to take responsibility for their calculated chemical choices they ultimately come to view their abusive behaviors in terms of not sickness but sin they can then learn how to achieve forgiveness of their sins and deliverance from their addictions by offering their hearts minds and bodies to jesus christ this is a skillfully written and powerful book about addiction and recovery having seen the devastating effects of addiction first hand mr mason was able to use his own personal experiences to develop a one of a kind text that dispels the myths about addiction and beautifully outlines the connection between the spirit and recovery after 14 years of working in the field of chemical dependency i have never found a more complete and insightful view of addiction recovery and spirituality cindy tidwell ms lpc professional addiction counselor

the hidden true dialogue behind the birth ministry of transformation to recover does not start as a face to face communication nor as the strategic communication in the development of a ministry but with the intrinsic testimony of john carlson s one on one with god john carlson lived the raw experience coming from severe addiction yet it was the very plan god had for him he describes it this way in order to break me down prideless to nothing to use me as a vessel to bring the light of the gospel to the darkness of addiction john carlson describes his testimony as a descent into nothingness of his own rebirth and transformation based on the mapcid model the recommendation to transformation to recovery is accentuated by a research study because of the great importance in providing an alternative option to prevent as well as rehabilitate individuals who have the potential to and or engage in addiction vices recommending mapcid

as a concept for the background workings and foundation for the analysis of potential conflict in development is appropriate as well using it as a research tool for the publishing of a book compiling a manual and creating a pilot model to duplicate transformation to recovery this leads to recreating faith based rehabilitation programs to deal with the social crisis in communities throughout the united states and ultimately deterring crime addiction and recidivism therefore the mapcid model is recommended as an interpretive instrumental tool to be used as a basis for future research in developing community faith based rehabilitation programs
