a study guide for the hesi a2 science nursing school test that calendarizes a study plan for test takers depending on how much time they have left before taking the test

the most effective study guide for the critical care nursing certification exam now with all new artwork critical care nursing

certification review is a comprehensive single source review that covers everything you need to know to excel on the examination administered by the American Association of Critical Care Nurses (AACN). Unlike dull, dry outline style reviews, this score boosting resource is presented in short, easy to read chapters that are similar to what you would hear at a well planned lecture following the CCRN blueprint. Coverage of each subject is weighted to reflect its level of importance on the actual exam. Ten practice exams, mostly centered around body systems, help you identify weak areas and sharpen your test taking skills. Chapters cover all the systems and topics you need to master, including cardiovascular, pulmonary, endocrine, immunology, and hematology, neurology, gastroenterology, renal, multi organ problems, professionalism, ethics, and synergy behavior.
