this book evokes the art of fifteenth and sixteenth century northern europe in all its richness and splendor the works of van eyck bosch bruegel dürer and other masters are considered within the larger context of a changing society in which church and state protestant and catholic man and woman artist and patron independent mercantile city and noble chivalric court all played a part craig harbison considers these and many other facets of the renaissance world drawing them together into a unified narrative that illuminates the complexity and brilliance of the art and its times

in this series accomplished authors accurately cover a range of subjects using up to date methodologies and impressive visual formats this is the first book to present a broad overview of the art of the renaissance from northern europe within its historical context key topics it includes well known works and artists as well as a diverse selection of novel and intriguing images it discusses issues and ideas of interest today such as the status of women elite vs popular inspiration and art as an instrument of propaganda among others and provides comprehensive coverage of the netherlands germany and france in the 15th and 16th centuries

in this lucid account stephanie porras charts the fascinating story of art in northern europe during the renaissance period ca 1400 1570 she explains how artists and patrons from the regions north of the alps the low countries france england germany responded to an era of rapid political social economic and religious change while redefining the status of art porras discusses not only paintings by artists from jan van eyck to pieter bruegel the elder but also sculpture architecture prints metalwork embroidery tapestry and armor each chapter presents works from a roughly 20 year period and also focuses on a broad thematic issue such as the flourishing of the print industry or the mobility of northern artists and artworks the author traces the influence of aristocratic courts as centers of artistic production and the rise of an urban merchant class leading to the creation of new consumers and new art products this book offers a richly illustrated narrative that allows readers to understand the progression variety and key conceptual developments of northern renaissance art

an up to date survey of this dynamic period of artistic innovation

this book offers a wide ranging introduction to the way that art was made valued and viewed in northern europe in the age of the renaissance from the late fourteenth to the early years of the sixteenth century drawing on a rich range of sources from inventories and guild regulations to poetry and chronicles it examines everything from panel paintings to carved altarpieces while many little known works are foregrounded susie nash also presents new ways of viewing and understanding the more familiar such as the paintings of jan van eyck roger van der weyden and hans memling by considering the social and economic context of their creation and reception throughout nash challenges the perception that italy was the european leader in artistic innovation at this time demonstrating forcefully that northern art and particularly that of the southern netherlands dominated visual culture throughout europe in this crucial period

the concept of a renaissance in the arts in thought and in more general culture north of the alps often evokes the idea of a cultural

transplant which was not indigenous to or rooted in the society from which it emerged classic definitions of the european renaissance during the 14th 15th and 16th centuries have seen it as what was in effect an italian import into the gothic north yet there were certainly differences divergences and dichotomies between north and south which have to be addressed here malcolm vale argues for a northern renaissance which while cognisant of italian developments displayed strong continuities with the indigenous cultures of northern europe but it also contributed novelties and innovations which often tended to stem from and build upon those continuities a short history of the renaissance in northern europe while in no way ignoring or diminishing the importance of the hellenic and roman legacy seeks other sources and different uses of classical antiquity for a rather different kind of renaissance if such it was in the north

the history of northern european art from the 15th through the 16th centuries

this updated version of humanism and the northern renaissance now includes over 60 documents exploring humanist and renaissance ideals the zeal of religion and the wealth of the new world together the sources illuminate the chaos and brilliance of the historical period as well as its failures and inconsistencies the reader has been thoroughly revised to meet the needs of the undergraduate classroom over 30 historical documents have been added including material by martin luther john calvin john knox william shakespeare christopher columbus miguel de cervantes and galileo galilei in the introduction bartlett and mcglynn identify humanism as the central expression of the european renaissance and explain how this idea migrated from italy to northern europe the editors also emphasize the role of the church and christianity in northern europe and detail the events leading up to the reformation a short essay on how to read historical documents is included each reading is preceded by a short introduction and ancillary materials can be found on utp s history matters website utphistorymatters com
