digital technology is fundamentally altering the world we live in but can only be truly understood in relation to the physical world we all inhabit the most successful future products and policies will be those that take this rich digital physical ecology seriously the physical world is increasingly filled with digital products to the extent that the boundaries of digital and physical reality become blurred from mundane devices such as mobile phones and washing machines to esoteric research including tangible computation and body implants we continually bridge two worlds literally touching

buttons and dials and simultaneously interacting with the digital systems that lie behind them the connection between pure thought and abstract information is through solid keyboard and mouse but likewise the material world of buildings cars and running shoes is suffused with computation through sensors displays and flashing leds how do people understand this world and how can designers create usable hybrid physical digital products touchit brings together insights from human computer interaction and industrial design exploring these themes under four main headings human body and mind objects and things space and information and computation in considering each the authors look into the underlying physical processes our human understanding of them and then the way these inform and are informed by digital design the end draws together the theoretical and practical implications of this for design including practical advice potential tools and philosophical underpinnings

key features contains 28 updated tables designed as quick easy to use references for new and old world species provides over 100 photographs and illustrations most now in color depicting aspects of nonhuman primate biology behavior management practices diseases and technical procedures gives a concise overview of regulatory considerations for the use of nonhuman primates in biomedical research expands the veterinary care chapter to include new sections on nutritional support behavioral conditions dental care and updated information on anesthetic and analgesic drugs presents step by step descriptions of common and advanced sampling techniques includes extensive resource lists for vendors of animals feed sanitation supplies caging anesthetic equipment and veterinary and research supplies extensively updated to include current literature the laboratory nonhuman primate second edition continues to serve as a quick reference source for technicians caretakers veterinarians researchers and students working with primates in biomedical research it provides details on basic husbandry and covers biologic characteristics regulatory compliance common diseases and anesthetic management the text gives easy to follow descriptions of basic technical procedures including restraint intubation tuberculin skin testing and collection of blood and urine samples it also reviews advanced sampling procedures including collection of bone marrow cerebrospinal fluid bronchoalveolar lavage fluid and rectal mucosal biopsy the laboratory nonhuman primate presents information in a clear concise format to allow readers to incorporate concepts and techniques into the standard operating procedures of a facility

understanding the psychological elements of consumer behaviour is key for marketing success this practical textbook for undergraduate and postgraduate students will enable them to apply this knowledge across marketing tasks applied consumer psychology is ideal for students of consumer psychology specifically at final year undergraduate and

postgraduate levels it is structured around the different practical tasks that marketers face every day this textbook features chapters on attention motivation personality and consumer learning demonstrates how these are used in practice across the marketing function shows how language in copywriting can affect perception of discount pricing and how eye tracking technology can help understand what really captures people's attention in advertisements the topics are explored using the latest research and applications discussing the psychological mechanisms that explain the behaviour applied consumer psychology will be supported by pedagogical features such as chapter summaries a glossary of terms and multiple choice questions to help reinforce student learning online resources include lecturer powerpoint slides and interactive experiments

acts of reading examines how john foxe's *actes and monuments* shaped reading and interpretive practice in the early modern period and addresses the impact of recent electronic editions of foxe's text on current reading practice and scholarship the collection draws on history of the book scholarship to make a plea for the centrality of foxe to any discussion of renaissance literary history these essays also productively attend to the relationship between the materiality of books and the conceptual assumptions that govern our engagement with them the anthology's focus on digital editions of foxe's *book of martyrs* allows it to explore the often conflicted relationship between modern technologies of book production and reception and the early modern texts transmitted via these technologies more broadly *acts of reading* explores how books and our encounters with them through different media turn us into who we are thomas anderson is an assistant professor of english at mississippi state university ryzn netzley is an assistant professor of english at southern illinois university

this work offers students the most current discussion of the major issues in greek and linguistics by leading authorities in the field featuring an all star lineup of new testament greek scholars including stanley porter constantine campbell stephen levinsohn jonathan pennington and robert plummer it examines the latest advancements in new testament greek linguistics making it an ideal intermediate supplemental greek textbook chapters cover key topics such as verbal aspect the perfect tense deponency and the middle voice discourse analysis word order and pronunciation

now in its third edition *teaching and researching reading* charts the field of reading first and second language systematically and coherently for the benefit of language teaching practitioners students and researchers this volume provides background on how reading works and how reading differs for second language learners the volume includes reading curriculum principles evidence based teaching ideas and a multi step iterative process for conducting meaningful action research on reading related topics the volume outlines 14 projects for teacher adaptation and use as well as numerous new and
