students are often overwhelmed by the amount of information presented in the introductory financial accounting course while instructors often want their students to better grasp the big picture fundamentals of financial accounting concepts delivers a unique approach to building accounting skills while maintaining a more traditional use of debits and credits through this method the authors drive students curiosity and inspire them to ask the why questions that get at the heart of how accounting works

by teaching foundational accounting concepts in a logical sequence the edmonds author team shifts the focus from memorizing procedures to the development of real world thinking patterns author chris edmonds has also created a highly popular and widely used series of video lectures which engage students by clearly and charismatically going over each learning objective in a conversational style these videos help reinforce important lessons and are always available for review through use of the financial statements model and transactional analysis students quickly see how any given business event affects the financial statements by having this big picture mentality students can tie any single transaction back to the impact on the overall business between the straightforward writing popular video lectures and unique coverage approach fundamentals of financial accounting concepts enables students to fully comprehend the material presented as future decision makers

this successful book continues to provide accountants with an understanding of the fundamental concepts necessary to use accounting effectively the sixth edition offers new discussions on ifrs including new codification numbers examples of ifrs financial statements and additional exercises a look at more recent frauds such as the bernie madoff scandal have been added enhanced discussions of ethics and international accounting are presented the coverage of non cash items and their impact on decision making has been expanded in addition comprehensive case studies and problems help accountants tie the material together

financial accounting 5th edition provides students with an understanding of fundamental concepts necessary to use accounting effectively starting with a macro view of accounting information the authors present real financial statements they establish how a financial statement communicates the financing investing and operating activities of a business to users of accounting information kimmel weygandt and kieso motivate students by grounding the discussion in the real world showing them the relevance of the topics covered to their future

an essential guide to aid in the understanding of financial accounting the study guide to accompany financial accounting 9th edition offers an understanding of the unique framework of success created and refined by the authors based on years of teaching and course design experience the team for success is focused on helping millennial students get the most out of their accounting courses in the digital age and on helping instructors deliver the most effective courses whether face to face hybrid or online with model course plans designed for easy and effective implementation the study guide

provides students with a clear and comprehensive introduction to financial accounting that begins with the building blocks of the accounting cycle

libby libby short wrote this text based on their belief that the subject of financial accounting is inherently interesting but financial accounting textbooks are often not they believe most financial accounting textbooks fail to demonstrate that accounting is an exciting field of study and one that is important to future careers in business when writing this text they considered career relevance as their guide when selecting material and the need to engage the student as their guide to style pedagogy and design libby libby short is the only financial accounting text to successfully implement a real world single focus company approach in every chapter students and instructors have responded very favorably to the use of focus companies and the real world financial statements the companies chosen are engaging and the decision making focus shows the relevance of financial accounting regardless of whether or not the student has chosen to major in accounting

this fully revised edition teaches readers how to understand and use accounting information in their business decisions taking a user oriented approach the text spotlights the link between accounting information and decisions and helps readers gain an appreciation of the strengths and weaknesses of reported accounting information for making different types of business decisions

this helpful supplement augments each chapter and appendix with reviews of the learning objectives outlines of the chapters summaries of chapter materials and additional problems with solutions

weygandt helps corporate managers see the relevance of accounting in their everyday lives challenging accounting concepts are introduced with examples that are familiar to them which helps build motivation to learn the material accounting issues are also placed within the context of marketing management it and finance the new do it feature reinforces the basics by providing quick hitting examples of brief exercises the chapters also incorporate the all about you aay feature as well as the accounting across the organization aao boxes that highlight the impact of accounting concepts with these features corporate managers will learn the concepts and understand how to effectively apply them

accounting may be challenging but with training and practice students can come out of a financial accounting course having achieved success with david weiner s financial

accounting as a second language students will get the practice and training they need to better understand fundamental principles build confidence and solve problems the goal of this title is to introduce the language of accounting explain the core concepts of accounting and learn how to apply these core concepts to solve accounting problems developed by david weiner through his forty year teaching career this text is filled with study skills techniques and strategies used help students learn the core concepts of accounting and get the grades they deserve
