this magnificent new book demonstrates the development of a distinctive unified culinary tradition throughout the italian peninsula thematically organized and beautifully
illustrated italian cuisine is a rich history of the ingredients dishes techniques and social customs behind the italian food we know and love today

following the milan universal exposition the scientific debate about food and nutrition has gained particular attention in 2015 as a result this volume focuses on issues related to
food safety consumption research and technology within the hórisma project funded by the university of milano bicocca and the university of milan four young scholars
investigated the possible developments of food production and consumption from different perspectives through a critical analysis on food trends in the international scenario
the main theme that links all the essays collected in this book is the belief that stimulating dialogue among different disciplines as well as promoting an integrated and
multidisciplinary approach is crucial to face all the issues concerning food and its connections to law technology society and science

ranging from the imperial palaces of ancient china and the bakeries of fourteenth century genoa and naples all the way to the restaurant kitchens of today pasta tells a story that
will forever change the way you look at your next plate of vermicelli pasta has become a ubiquitous food present in regional diets around the world and available in a host of
shapes sizes textures and tastes yet although it has become a mass produced commodity it remains uniquely adaptable to innumerable recipes and individual creativity pasta

the story of a universal food shows that this enormously popular food has resulted from of a lengthy process of cultural construction and widely diverse knowledge skills and techniques many myths are intertwined with the history of pasta particularly the idea that marco polo brought pasta back from china and introduced it to europe that story concocted in the early twentieth century by the trade magazine macaroni journal is just one of many fictions unmasked here the true homelands of pasta have been china and italy each gave rise to different but complementary culinary traditions that have spread throughout the world from china has come pasta made with soft wheat flour often served in broth with fresh vegetables finely sliced meat or chunks of fish or shellfish pastasciutta the italian style of pasta is generally made with durum wheat semolina and presented in thick tomato based sauces the history of these traditions told here in fascinating detail is interwoven with the legacies of expanding and contracting empires the growth of mercantilist guilds and mass industrialization and the rise of food as an art form whether you are interested in the origins of lasagna the strange genesis of the chinese pasta bing or the mystique of the most magnificent pasta of all the timballo this is the book for you so dig in
