an introduction to psychology doesn't have to be science challenged to be student friendly after all what more powerful tool is there for captivating students than the real science behind what we know this skillful presentation centers on a smart selection of pioneering and cutting edge experiments and examples it effectively conveys the remarkable achievements of psychology with the right amount of critical judgment to introduce the field's fundamental ideas to students from publisher

this bestselling textbook brings the latest developments in psychology to students in a signature writing style that will inspire a lifelong love of science the authors respected researchers and popular writers invite students to join them on a tour of their favorite subject psychological science the new edition takes a closer look at the role psychology plays in our society with new material in chapter 2 that looks at the truth about psychological science the rate of replication and how critical thinking is foundational in science and life chapter 1 presents a new look at the history of the science with unexpected stories and new insights into its surprising origins each chapter has been fully updated with research and examples to portray a field that is constantly evolving and illuminating the world today the book can also be purchased with the breakthrough online resource launchpad which offers innovative media content curated and organised for easy assignability launchpad's intuitive interface presents quizzing flashcards animations and much more to make learning actively engaging

this globally focused and renowned textbook spans the entire discipline of psychology from the fundamental principles of psychology as a science to more nuanced approaches in core disciplines such as cognitive developmental social and personality psychology woven together with engaging features research boxes and activities that will help students to both think like a scientist and stretch their imagination in depth and yet written with irresistible enthusiasm and humour by a world renowned team of psychologists and researchers this book is a complete course companion for all

undergraduate psychology students it is both engaging and yet scientifically sound and theoretically rigorous the only book students need as they begin their study of psychology

a uniquely compelling introduction to psychology from three well known researcher educators writers

in this book professor ghahreman khodadad illuminates the basis of human behavior by examining the structures that underline antisociality the book s central thesis is that antisocial people are so thanks to biological and neurological structures the principle of structure to function is used to argue that the brain without us being conscious of it produces our behaviors if this claim is correct then antisocial individuals are not accountable for their antisocial behavior and they should be treated respectfully instead of being punished furthermore prisons should accordingly be converted into rehabilitation treatment and behavioral research centers this is a book for the general reader who is interested in the basis of human behavior it should also be of interest to psychologists psychiatrists neuroscientists geneticists neurobiologists and philosophers

are you still struggling with emotionally immature parents do the people who should have loved and protected you continue to manipulate you instead of treating you with respect and love do you often feel confused or insecure because of your parents unpredictable reactions are you struggling every day to repair the damage that they caused emotionally immature parents are adults who have difficulty managing their emotions and providing a stable and reliable supportive environment for their children these parents may have a poor understanding of their children s needs and may exhibit manipulative controlling and unaccountable behaviours and while it s easy to normalise behaviour that we have grown up with dealing with an emotionally immature parent can be frustrating demoralising and leave us unable to deal with our own emotions unable to deal with their emotions parents like this tend to sweep things under the carpet or blame other people i recommend reading this book if you recognise at least one of the following traits in your parents they do not validate your feelings or give them room to emerge they are very rigid and resolute and become aggressive to new ideas overreactions even to small things they have low stress tolerance and have trouble admitting mistakes they are self preoccupied and egocentric they always have to be

right they blame you for their flaws or mistakes they do not take responsibility for their actions they are only concerned about your physical needs and not your emotional needs they have the ability to make you lose your mind and drain all your energy denial of reality emotional manipulation and gaslighting by making you feel crazy these are just some of the most common signs in each family they may change or combine with each other you can may appear happy but feel lonely are highly strung anxious and controlling as an adult you could now experience constant feelings of betrayal anger loneliness or abandonment guilt when you are happy confusion due to your parents unpredictable and inconsistent reactions embarrassment about what happened to you and what others might think about it a feeling that you are trapped in the relationship with them with no way out adult children of immature parents always recognise that something is wrong but overlook the devastating long term effects it can cause in them can this painful legacy be stopped fortunately there are methods in this manual to identify and interrupt dysfunctional patterns and cultivate new ones that are helpful and tailored to you it is important to do this for yourself your loved ones and ultimately your children breathe deeply release that knot in your stomach and read it now

the result of an exclusive partnership with scientific american the articles in this collection were personally selected from the pages of world s foremost scientific magazine by the authors dan schacter dan gilbert and dan wegner

deuteronomy characterizes memory as the key to israel s covenantal loyalty and commands its cultivation in the generations to come and the book portrays itself as the foundation for this ongoing memory program for this reason deuteronomy is considered to be an ancient collective memory text however recent scholarship has not focused on the book as a formative agent leaving fundamental questions about the book unanswered why does deuteronomy see memory as important in the first place how does it seek to cultivate this memory in the people a j culp answers these questions by exploring deuteronomy as a formative memory text and bringing contemporary memory theory into dialogue with biblical scholarship culp shows that deuteronomy has tailored memory to its unique theology and purposes a fact that both illuminates puzzling aspects of the text and challenges long held views in scholarship such as those regarding aniconism

cognitive science provides a comprehensive and up to date introduction to the study of the mind from an interdisciplinary perspective

Schacter Gilbert Wegner and Nock's psychology third edition is widely acclaimed for captivating students with contemporary psychology research on the major topics of the introductory course while helping them develop critical thinking skills that will stay with them beyond the course term. Expert coverage of the DSM-5 quirky examples of thinking gone awry scenarios based on common psychological misconceptions and contributions from new co-author Matthew Nock highlight the new edition and now this breakthrough text is available in a version created just for Canadian students and teachers. It offers the same fascinating writing, helpful study tools, and keen eye for intriguing stories as psychology third edition but with a wide range of Canadian examples and impactful work by Canadian researchers incorporated throughout. Welcome Canadian author Ingrid Johnsrude. Ingrid's principal area of investigation is the neural basis of understanding speech and she leads experiments examining how utterances are transformed into acoustic signals and then into meaning via a variety of cognitive processes. Her investigations span multiple levels from understanding the brain structures involved in hearing and comprehension to observing the ways listeners deal with challenges such as background noise. Launchpad featuring LearningCurve psychology third Canadian edition has its own dedicated version of Worth's new online course space. Launchpad offers Worth's acclaimed media content curated into prebuilt, easily assignable units in a breakthrough interface in which power and simplicity go hand in hand. For more information, visit launchpadportal.com. Available in Launchpad, the widely praised adaptive quizzing system, LearningCurve uses brief game-like activities to put the concept of testing to learn into action. Customized quizzing adapts to students' responses and provides individualized question sets at different difficulty levels with instant feedback based on each student's progress. For more information, visit learningcurveworks.com.
