in nashville they call it the number system easy to understand this book will have you immediately composing your own tunes and arranging simple ways to accompany any song you want to play or sing in fact i know a girl who joined a band after practicing these short lessons after only two weeks the nashville number system was created for studio musicians to easily transcribe songs into different keys depending on the vocal range of the singer music is numbers will show you how to create different harmonic sound combinations it s as easy as mixing yellow and blue paint to create the color green here is a copy of the letter inside the book dear friend i have developed this easy program to teach the simple mechanics of music we live in a 3 dimensional world measured by numbers music is also 3 dimensional and measured with numbers timing is dictated by the space in between the notes it is the rhythm that evokes the emotion of the music just like breath the beating of our hearts and the waves breaking on the sand music is the universal language that speaks to all living things there is evidence that plants grow healthier when exposed to music some farmers have been known to put speakers in their fields to play symphonies for their crops many times when i play the piano small animals will come on my porch to be entertained a lullaby will calm a baby and put it to sleep even the earth sings as she soars through the solar system spinning on her axis our world is full of music i often use the sounds of nature when i write music the birds sing the waves move the stream babbles and the wind whistles i actually wrote a different melody for each season i was inspired by leaves falling in the autumn cold wind and snow blowing in the winter the beauty and renaissance of spring and the warmth and playfulness of summer after taking this course you will have the basic tools to create your own compositions like an artist with a blank canvas and colorful paints you will also be able to create a unique style of playing that belongs only to you to learn more visit me at [cynthiamusic.com](http://cynthiamusic.com) have fun cynthia

you may be surprised to find out that there are only four chords that make up most of the songs you hear in fact one

of those four is just the fundamental chord but with a shifted down bass note and sounds darker this means that you only need to learn and you absolutely can learn how to recognize three main chords with just your ear you ll be able to play most songs without needing any sheet music or searching for the chords online if you ve ever wanted to know how to hear a song and play the chords by ear piano chords three numbers is a way to do that here s how it works professionals listen for the chords in a song as numbers instead of the chord names each key changes the names of the chords but not the numbers for instance in the key of c the 1 chord is c in the key of g the 1 chord is g the 1 chord is a very simple chord to hear once you hear the fundamental distinct tone of the 1 you can then find the key by testing several chords until you find the right one then you not only know what key you are in but also the fundamental 1 chord for that key all the other chords in the song build from that one piano chords three numbers includes welcome why numbers and what are they one the 1 chord and its dominance two the 4 and 5 the other pillars three the 6m just a dark 1 chord four the 2m the new 4 five the over or passing chords 1 3 5 7 and 4 1 six the 3m and 7dim seven the 7 2 and 3 the accidentals eight the most common chord patterns you ll hear these everywhere nine going a little beyond chord suffices final greetings and pop quizeveryone can do this new players and seasoned
