since the nineteenth century when art history became an established academic discipline works of art have been read in a variety of ways these different ways of describing and interpreting art are the methodologies of artistic analysis the divining rods of meaning regardless of a work's perceived difficulty an art object is in theory complex every work of art is an expression of its culture time and place and its maker the artist and is dependent on its media what it's made of the methodologies discussed here formal analysis iconology and iconography marxism feminism biography and autobiography psychoanalysis structuralism race and gender reflect the multiplicity of meanings in an artistic image the second edition includes nineteen new images new sections on race gender orientalism and colonialism and a new epilogue that analyzes a single painting to illustrate the different methodological viewpoints

this book explores digital artists' articulations of globalization digital artworks from around the world are examined in terms of how they both express and simulate globalization's impacts through immersive participatory and interactive technologies the author highlights some of the problems with macro and categorical approaches to the study of globalization and presents new ways of seeing the phenomenon as a series of processes and flows that are individually experienced and expressed instead of providing a macro analysis of large scale political and economic processes the book offers imaginative new ways of knowing and understanding globalization as a series of micro affects digital art is explored in terms of how it re-centers articulations of globalization around individual experiences and offers new ways of accessing a complex topic often expressed in general and intangible terms the work of art in a digital age art technology and globalization is analytic and accessible with material that is of interest to a range of researchers from different disciplines students studying digital art film globalization cultural studies or digital media trends will also find the content fascinating

a pioneering overview of art and psychoanalysis that shows how each field can enrich and enlarge the other

appropriate for one semester art history surveys or historically focused art appreciation classes a history of western art fifth edition combines sound scholarship lavish visuals and a lively narrative to provide students with an accessible and engaging

introduction to art history focusing on the western canon the text presents a compelling chronological narrative from prehistory to the present a non western supplement world views topics in non western art addresses specific areas of non western art and augments the western chronology by illustrating moments of thematic relationships and cross cultural contact

art across time combines sound scholarship and lively prose engaging students with both its narrative and its lavish visual program popular with majors and non majors alike art across time offers readers more than a chronology of art it discusses political economic social and personal concerns that influence the artists and inform their work uniquely conveying the ideas beliefs and circumstances that inspire creativity visual reproductions in the text are larger in scale and higher in quality than those in other art history texts enhancing visual appeal and allowing students to view details and elements of composition with greater ease the new third edition is enhanced by new visual connections between works more use of color and architectural diagrams an enhanced map program new boxed readings and more in addition the text s illustration program is now available to adopting instructors in digital format via the image vault mcgraw hill s new based presentation manager instructors can incorporate images from the image vault in digital presentations that can be used in class offline burned to cd rom or embedded in course pages see mhhe com theimagevault for more details

choreographies of the living explores the implications of shifting from viewing art as an exclusively human undertaking to recognizing it as an activity that all living creatures enact carrie rohman reveals the aesthetic impulse itself to be profoundly trans species and in doing so she revises our received wisdom about the value and functions of artistic capacities countering the long history of aesthetic theory in the west beginning with plato and aristotle and moving up through the recent claims of neuroaesthetics rohman challenges the likening of aesthetic experience to an exclusively human form of judgment turning toward the animal in new frameworks for understanding aesthetic impulses rohman emphasizes a deep coincidence of humans and animals elaborations of fundamental life forces examining a range of literary visual dance and performance works and processes by modernist and contemporary figures such as isadora duncan d h lawrence virginia woolf and merce cunningham rohman reconceives the aesthetic itself not as a distinction separating humans from other animals but rather as a framework

connecting embodied beings her view challenges our species to acknowledge the shared status of art making one of our most hallowed and formerly exceptional activities

interdisciplinary research process and theory offers a comprehensive systematic presentation of the interdisciplinary decision making process by drawing on student and professional work from the natural sciences social sciences humanities and applied fields designed for active learning and problem based approaches the fourth edition includes expanded discussion of epistemology creativity within the interdisciplinary research process confirmation bias and social media the philosophy of integration and student work patterns mapping and the importance of performing independent research while working through this book an instructor website for the book includes a test bank powerpoint slides and tables and figures from the book

this book of eight brief chapters on different aspects of the visual arts is designed to explore the nature of imagery and its relevance to many facets of our lives drawing on a wealth of examples from western and non western art through the ages it examines a wide range of themes from the relationship between form and meaning to the methodologies of art historical analysis to the controversies that have surrounded certain works of art both past and present
