a powerful history of student protests and student rights during the desegregation era in the late 1960s

protests led by students roiled high schools across the country as school desegregation finally took place on a wide scale students of color were particularly vocal in contesting the racial discrimination they saw in school policies and practices and yet these young people had no legal right to express dissent at school it was not until 1969 that the supreme court would recognize the first amendment rights of students in the landmark tinker v des moines case a series of students rights lawsuits in the desegregation era challenged everything from school curricula to disciplinary policies but in casting students as troublemakers or as culturally deficient school authorities and other experts persuaded the courts to set limits on rights protections that made students of color disproportionately vulnerable to suspension and expulsion troublemakers traces the history of black and chicano student protests from small town mississippi to metropolitan denver and beyond showcasing the stories of individual protesters and demonstrating how their actions contributed to the eventual recognition of the constitutional rights of all students offering a fresh interpretation of this pivotal era troublemakers shows that when black and chicano teenagers challenged racial discrimination in american public schools they helped remake american constitutional law and establish protections of free speech due process equal protection and privacy for students

in unconscious bias in schools two seasoned educators describe the phenomenon of unconscious racial bias and how it negatively affects the work of educators and students in schools regardless of the amount of effort time and resources education leaders put into improving the academic achievement of students of color the authors write if unconscious racial bias is overlooked improvement efforts may never achieve their highest potential in order to address this bias the authors argue educators must first be aware of the racialized context in which we live through personal anecdotes and real life scenarios unconscious bias in schools provides education leaders with an essential roadmap for addressing these issues directly the authors draw on the literature on change management leadership critical race theory and racial identity development as well as the growing research on unconscious bias in a variety of fields to provide guidance for creating the conditions necessary to do this work awareness trust and a learner s stance benson and fiarman also outline specific steps toward normalizing conversations about race reducing the influence of bias on decision making building empathic relationships and developing a system of accountability all too often conversations about race become mired in questions of attitude or intention but i m not a racist this book shows how information about unconscious bias can help shift conversations among educators to a more productive collegial approach that has the potential to disrupt the patterns of perception that perpetuate racism and institutional injustice tracey a benson is an assistant professor of educational leadership at the university of north carolina at charlotte sarah e fiarman is the director of leadership development for el education and a former public school teacher principal and lecturer at harvard graduate school of education
