this book explores the faith work and lives of port chaplains and seafarers it draws on archive materials fieldwork in ports and on cargo ships and interviews with chaplains in the uk and overseas the volume presents a detailed picture of seafarers attitudes to working in mixed faith crews their understandings of their own faith and its role and negotiation in a life at sea and their needs with regard to faith and more general welfare support in addition it describes the daily life and work of port chaplains how they

understand their roles in relation to their own faith and how they manage their work in a multi faith environment in producing this rich account the perspectives of relevant stakeholders and the historical underpinnings of port chaplaincy have also been considered alongside the ways in which port chaplaincy compares with other forms of chaplaincy about which rather more has hitherto been known

southeast asia located on the europe far east trade route is one of the busiest shipping region of the world and a major source of seafarers for the international shipping industry in the context of the growing maritime aspirations of the region and the depressed state of world shipping a study of the current situation facing seafarers in the region seemed timely

this volume offers a systematic account of the effects of globalization on the shipping industry and seafarers lives the seafarers labor market is changing rapidly and this study discusses the challenges encountered in recruitment practices trade unions and collective bargaining as well as training certification and fraudulent certification wages contracts and tours of duty are also investigated and the book includes in depth treatment of seafarer safety and hazard exposure innovations such as automated engine rooms and the global maritime distress and safety system the internationalization of ship registrations multinational crewing and reductions in crewing levels and the rise in ship management companies have had a profound effect on seafarers living and working conditions this perceptive book examines these and future issues for regulation and enforcement

this book explores the complex interplay between maritime insurance and piracy in the indian ocean a crucial global trade route drawing on rich oral histories this work delves into the lives of seafarers and insurance experts who confront the harsh realities of somali piracy through a series of compelling case studies including the notorious maersk alabama hijacking the book sheds light on the evolving role of maritime insurers as they navigate the precarious waters of risk management it highlights how these companies not only provide financial protection but also shape maritime security practices transforming the sea into a managed space of governance spanning a geographical range from the horn of africa to global maritime hubs the book emphasises the human cost of piracy and the often overlooked experiences of those at sea bridging between historical cases and contemporary challenges the book advocates a deeper understanding of the maritime landscape furthermore by exploring the perspectives of seafarers the book provides a unique insight into the emerging challenges faced at sea and the importance of safety in moments of maritime insecurity this book will be of much interest to students of maritime security naval policy the history of insurance and international relations
