narrative perspective is the faculty through which humans understand structure and explore the world that confronts them this is the first volume to bring together the theoretical study of perspective with the rigor of experimental studies combining work in narratology with that in linguistics philosophy film studies literary theory and cognitive psychology the chapters are grouped thematically and drawn together by the editors who provide guidance through this new and fascinating interdisciplinary territory

why is it that we tend to think about our lives as stories why do we strive to create coherent narratives that reflect a particular perspective what happens when we discover multiple perhaps conflicting perspectives in our narratives following groundbreaking work in the study of narrative identity in the last 20 years the scholars of this volume have expanded and merged their theories of narrative identity with new perspectives in fields such as narratology literary theory philosophy cultural studies psychology sociology gender studies and history their contributions focus on the significance of perspective in the formation of narrative identities probing the stratagems and narrative means of individuals in testing out personae for themselves

the book offers a novel approach to the question of how to model narrativity against the background of perspectivization by bringing together contributions from neuro and cognitive linguistics literary studies and picture theory the volume uncovers basic mechanisms of perspectivization that are common to the different levels of linguistic structure literary novels and narrative pictures as such it is also a book on narrative perspectivization since its contributions examine in detail the perspectival principles in medieval romantic and postmodern literature in the micro linguistic structure of language narrative pictures literary novels dramatic texts and everyday stories in doing so it contributes both to the theoretical debate on the core definition of narrativity and offers new empirical investigations on perspectival principles in specific historical medial and genre constellations this volume will be of interest to scholars and students of cognitive linguistics narrative research and

transmedial narratology cognitive poetics and stylistics

a focus on the inter relationship between experience self and society brilliantly advances our understanding of the narrative turn in the social sciences this text will be of vital interest to both sociologists and psychologists

the way we tell stories influences how others react to our emotions and impacts how we cope with emotions ourselves

the socially minded linguistic study of storytelling in everyday life has been rapidly expanding this book provides a critical engagement with this dynamic field of narrative studies addressing long standing questions such as definitions of narrative and views of narrative structure but also more recent preoccupations such as narrative discourse and identities narrative language power and ideologies it also offers an overview of a wide range of methodologies analytical modes and perspectives on narrative from conversation analysis to critical discourse analysis to linguistic anthropology and ethnography of communication the discussion engages with studies of narrative in multiple situational and cultural settings from informal intimate to institutional it also demonstrates how recent trends in narrative analysis such as small stories research positioning analysis and sociocultural orientations have contributed to a new paradigm that approaches narratives not simply as texts but rather as complex communicative practices intimately linked with the production of social life

there is often a communication disconnect between medical caregivers including doctors nurses therapists and other assistive medical personnel and the patient while medical staff usually understand a patient s symptoms causes and treatments communicating this understanding to a patient using industry terminologies can lead to confusion and misunderstanding and similarly patients may lack the vocabulary to effectively communicate their experiences back to their caregivers a new approach to communication must be bridged between these groups by individuals who have experience on both sides of the conversation previous studies of doctors who end up in the role of the patient reveal how these individuals

have a dual perspective on illness combining their medical knowledge with their own personal medical experiences narratives including autobiographical accounts and fictional stories can help bridge the gap between experiential and academic knowledge of illness by expanding one's limited perspective and accessing others points of view autobiographical and fictional narratives can both play a role in developing a more comprehensive understanding of illness beyond simply treating the disease it is necessary to further examine the ethical and methodological underpinnings of narrative based interventions in the education of healthcare professionals practitioners and patients global perspectives on probing narratives in healthcare offers a multidisciplinary examination of theoretical and methodological uses of narratives in healthcare by bringing together medical aspects of healthcare and the study of arts and humanities this illustrates specific applications of narratives in healthcare settings including improvement of clinical skills performance of the caring role and self efficacy for building a true partnership in the patient's health journey through varied approaches up to date tools and resources that can be transferred and adapted to specific educational and healthcare contexts this diverse collection of expert knowledge and experience is led by editors with over 20 years of teaching experience dr teresa casal of the university of lisbon portugal and dr maria de jesus cabral of the university of minho portugal expertise featured in this book includes contributions from some of the most prestigious academic institutions including columbia university in the united states king's college in the united kingdom university of padua in italy and more it is an essential resource for healthcare and social science researchers academics advanced healthcare students health training and education departments healthcare practitioners and patients associations and policymakers in healthcare who are looking to broaden their scope of understanding of the patient experience

the contributors to this exciting new collection edited by wendy patterson address the real and far reaching affects of narrative in everyday life positing the power and intentionality of narrative in short its strategic uses the essays reveal how we use our ways of telling to reclaim evaluate and draw meaning from our experiences in an increasingly complex world the contributors take up themes of

narrative as resistance the ethical dimension of narrative the importance of narrative in the imaginary social worlds of children the role of narrative in the construction of masculinity the uses of narrative in therapy and the significance of imaginary stories in personal narratives of traumatic experience strategic narrative brings together diverse perspectives from a range of disciplines and takes the reader into compelling discussions of this often simplified and confoundingly theorized form of discourse

the essays and editorial commentary in this volume focus on the inter relationship between experience self and society and offer to advance understanding of the implications of the narrative turn in social sciences

multidisciplinary perspectives on narrative aesthetics in video games is a collection of contemporary research and interpretation that explores the narrative structures in video games and ludonarrative content design in related media featuring coverage of a broad range of topics including narrative theory game studies history of video games and interdisciplinary studies this book is ideally designed for scholars researchers intellectuals media professionals game developers entrepreneurs and students who wish to enhance their understanding of the relationship and correlation of video games narrativity and aesthetics

advances in medical science and technology are saving the lives of more children worldwide than ever some survive and live out a normal life expectancy others have a life limiting life threatening diagnosis where death may come early and still others will live on well past projected life trajectories into adulthood with so many different care pathways children parents and communities often find themselves facing challenges for which neither they nor their healthcare systems are prepared this book opens a global discussion of these issues extending rita pfund s text palliative care nursing of children and young people it invites paediatric palliative care professionals parents and children from around the globe to share their knowledge and experience this book is of vital interest to palliative care

professionals parents policy makers and academics it is an important move towards ensuring that all children and their families regardless of geographical location gender ethnicity or socio economic class have equal and guaranteed access to comprehensive paediatric palliative care services

the contributors in this collection question what kinds of relationships hold between narrative studies and the recently established field of multimodality evaluate how we might develop an analytical vocabulary which recognizes that stories do not consist of words alone and demonstrate the ways in which multimodality brings into fresh focus the embodied nature of narrative production and processing engaging with a spectrum of multimodal storytelling from low tech examples encompassing face to face stories comic books printed literature through to opera film adaptation and television documentary stretching beyond to narratives that employ new media such as hypertext performance art and interactive museum guides this volume examines the interplay of semiotic codes visual oral aural haptic physiological within each case under scrutiny thereby exposing both points of commonality and difference in the range of multimodal narrative experiences

twentieth century narratology fostered the assumption which distinguishes narratology from previous narrative theories that all narratives have a narrator since the first formulations of this assumption however voices have come forward to denounce oversimplifications and dangerous confusions of issues optional narrator theory is the first collection of essays to focus exclusively on the narrator from the perspective of optional narrator theories sylvie patron is a prominent advocate of optional narrator theories and her collection boasts essays by many prominent scholars including jonathan culler and john brekman and covers a breadth of genres from biblical narrative to poetry to comics this volume bolsters the dialogue among optional narrator and pan narrator theorists across multiple fields of research these essays make a strong intervention in narratology pushing back against the widespread belief among narrative theorists in general and theorists of the novel in particular that the presence of a fictional narrator is a defining feature of fictional narratives this topic is an important one for narrative

theory and thus also for literary practice optional narrator theory advances a range of arguments for dispensing with the narrator except when it can be said that the author actually created a fictional narrator

one of the more interesting perspectives for evaluation is narrative narratives are the common vehicles people use to understand and to communicate the value of their actions and social practices this volume explores what a narrative perspective can mean for the practice of program evaluation

featuring a major synthesis and critique of interdisciplinary narrative theory story logic marks a watershed moment in the study of narrative david herman argues that narrative is simultaneously a cognitive style a discourse genre and a resource for writing because stories are strategies that help humans make sense of their world narratives not only have a logic but also are a logic in their own right providing an irreplaceable resource for structuring and comprehending experience story logic brings together and pointedly examines key concepts of narrative in literary criticism linguistics and cognitive science supplementing them with a battery of additional concepts that enable many different kinds of narratives to be analyzed and understood by thoroughly tracing and synthesizing the development of different strands of narrative theory and provocatively critiquing what narratives are and how they work story logic provides a powerful interpretive tool kit that broadens the applicability of narrative theory to more complex forms of stories however and wherever they appear story logic offers a fresh and incisive way to appreciate more fully the power and significance of narratives

this textbook guides the reader on how to undertake high quality literature reviews from traditional narrative to protocol driven reviews the guidance covers a broad range of purposes disciplines and research paradigms whether the literature review is part of a research project doctoral study dissertation or a stand alone study the book offers approaches methods tools tips and guidelines to produce more effective literature reviews in an efficient manner the numerous examples are drawn from an array of subject areas such as economics healthcare education medicine psychology software engineering amongst others this makes it worthwhile

for a wide range of studies and for reviews into evidence based interventions policies practices and treatments there is attention given to presenting reporting and publishing literature reviews with the additional clarity brought about by explanatory tables and graphs this textbook is a must have for all students researchers academics and practitioners at any stage of their project or career when engaging with literature in addition citizens policymakers and practitioners will benefit from the guidance with better insight into how literature reviews could and should have been conducted
