with the rapid and ubiquitous spread of urban light pollution nocturnal darkness has become a rare and neglected experience in response to the steady decline of gloom researchers working across multiple disciplines have sought to understand the dynamic and innovative role nighttime plays in human cultures across time from studies on the ritualistic function of darkened caves in paleolithic times to contemporary policy concerns over the need for nighttime mayors and tourist economies night research has emerged as a prolific line of inquiry capturing the night's distinct qualities however while night studies brings much needed attention to human experiences with darkness little work exists outside the context of cities the result is that explorations of rural darkness such as the media genres and styles that culturally shape the meaning of the rural night have been meager this book provides a critical and comprehensive account of the mediation of rural darkness analyzing a wide range of contemporary media from astrophotography tourist advertisements and social media to editing software online databases and nature documentaries the book focuses on two competing and irreconcilable cultures of rural darkness on the one hand many media genres contribute to a preservation ideology based on the western myth of wilderness relying on the classic urban rural binary this culture of rural darkness imagines the night as a primal and ancient inheritance a distant and remote frontier free from the ills of human technology on the other hand other media genres challenge

this preservationist depiction of rural darkness demonstrating that the rural night does not retreat from modern urban life but is an extension of the urban technological promoting a hybrid intermeshed view of the night this culture of rural darkness dismantles the frontier myth by understanding pristine darkness as a cultural technology that seeks to erase the messy connections between the rural and the urban the book contends that only the latter culture of rural darkness offers a responsible and accurate understanding of the rural night not only does the preservationist view of pristine darkness privilege natural darkness over other sustainable forms of gloom but its endorsement of the frontier myth represents a flight from history a rhetorical strategy that may actually prevent the night's protection

the first major work of art history to focus on women artists and their engagement with the spirit world by the author of the mirror and the palette it s not so long ago that a woman s expressed interest in other realms would have ruined her reputation or even killed her and yet spiritualism in various incarnations has influenced numerous men including lauded modernist artists such as wassily kandinsky piet mondrian kazimir malevich and paul klee without repercussion the fact that so many radical female artists of their generation and earlier also drank deeply from the same spiritual well has been sorely neglected for too long in the other side we explore the lives and work of a group of extraordinary women from the twelfth century mystic composer and artist hildegard of bingen to the nineteenth century english spiritualist georgiana houghton whose paintings swirl like a cosmic jackson pollock the early twentieth century swedish artist hilma af klint who painted with the help of her spirit guides and whose recent exhibition at new york s guggenheim broke all attendance records to the desert transcendentalist agnes pelton who painted her visions beneath the vast skies of california we also learn about the swiss healer emma kunz who
