integrating media studies with history media tactics in the long twentieth century explores the dynamic relationship between tactics and strategies in recent history drawing on examples from a range of different countries and world regions and looking at the infrastructures entanglements and institutions involved the volume makes a strong case for media tactics as a new field of scholarly inquiry and for the importance of a historically informed approach in contrast to strategic communication approaches this media historical intervention contributes to new knowledge about the practical implementation of strategies first

foregrounding tactics as an object of study the volume then counters the presentism of contemporary studies by adding a necessary historical perspective moreover the book theoretically disentangles the concept of strategy from an abstract contemporary buzzword to concrete hands on actions which in turn reveals the complexity of using media strategies and media tactics in reality this volume will interest scholars and students working in the field of media and communication in general and in the subfields of strategic communication public relations media history and propaganda studies the open access version of this book available at taylorfrancis com has been made available under a creative commons attribution non commercial no derivatives cc by nc nd 4 0 license
