this volume brings together papers presented at the fifth international conference of the european historical bibliographies project held in prague on november 7 8 2013 under the auspices of the department of historical bibliography of the institute of history of the academy of science of the czech republic the conference attracted bibliographers historians and librarians from denmark france ireland lithuania germany switzerland and from a number of czech institutions and libraries who gathered to discuss a wide range of topics the main theme of the conference was the significance of historical bibliography for historical science given the diversity of professional focus among the

conference participants this topic was approached and examined from a variety of viewpoints the most important outcomes of these meetings were firstly explaining the way individual participating organisations dealt with historical bibliography and secondly providing a comparison of different methodological and technological approaches for processing specialized bibliographies in various european countries this book introduces the wider public to the current shape and prospects of historical bibliography projects across a range of european countries obviously such projects must reflect the needs of their users which mainly comprise historians and librarians the ongoing development of historical bibliography does not only involve a technical challenge but also a methodological one as well as a societal one when interpreted in a broader context mutual communication helps form the future direction of historical bibliography which will undoubtedly face many new tasks and challenges

code for most web sites mostly runs on the server when a user clicks on a link the site reacts slowly because the browser sends information to the server and the server sends it back again before displaying the results with near universal availability of capable browsers and powerful hardware the single page web application spa pushes most of the code to the browser giving users immediate results whether they re surfing at their desk or using a phone app single page applications shows how to build modern browser based apps that take advantage of stronger client platforms and more predictable bandwidth it covers the spa design approach and explores new techniques like structured javascript and responsive design readers will learn to capitalize on trends like server side javascript and nosql data stores as well as new frameworks that make javascript more manageable and testable as a first class language audience this book is for web developers architects and product managers who know about javascript html css and web development basics about the technology a single page application spa is an application delivered to the browser that does not reload the page during use
