the handbook of insurance reviews the last fifty years of research developments in insurance economics and its related fields a single reference source for professors researchers graduate students regulators consultants and practitioners the book starts with the history and foundations of risk and insurance theory followed by a review of prevention and precaution asymmetric information insurance fraud risk management insurance pricing new financial innovations reinsurance corporate governance capital allocation securitization systemic risk insurance regulation the industrial organization of insurance markets and other

insurance market applications the new edition covers many topics that have risen in importance since the 2nd edition such as climate risk pandemic risk insurtech digital insurance cyber risk behavioral economics solvency ii corporate governance enterprise risk management and machine learning this edition of the handbook contains 17 new chapters each of the chapters is written by leading international authorities in risk and insurance research all contributions are peer reviewed and each chapter can be read independently of the others it is a tour de force to provide to the insurance industry and its stakeholders a structured complete intelligent and critical synthesis of insurance economics in the twenty first century this is what you have in your hands this third edition of the handbook of insurance should be the bible to anyone who wants to have a deep understanding of the complex challenges faced by insurance and reinsurance markets to create the large social value of risk sharing and risk diversification christian gollier director of the toulouse school of economics this collective work not only offers a remarkable synthesis of cutting edge research in insurance economics but also provides a rare resource both comprehensive and authoritative for professionals seeking a deeper understanding of insurance industry fundamentals and emerging trends the content of the handbook reflects the richness and dynamics of the field and underlines the many facets involved in better understanding how insurance works and contributes to society jad ariss managing director the geneva association

today many states have proposed so called don t say gay bills that prohibit public school teachers from mentioning lgbtq topics in the classroom but a few states like california have taken decisive steps in the other direction they mandate inclusive education that treats lgbtq history as essential to the curriculum at once a history of an evolving movement and an activist handbook

contested curriculum navigates the rocky path to lgbtq inclusive k 12 history education in the united states and recounts the fight for a curriculum that recognizes the value of queer and trans lives what began in fits and starts in activism and educational materials across the late twentieth century led to the passage of california s landmark fair education act in 2011 ensuring that lgbtq history has a place in the k 12 classroom historian don romesburg the lead scholar who worked with advocacy organizations to pass the act recounts the decades long struggle to integrate lgbtq content into history education policy textbooks and classrooms looking at california and states that followed its lead he assesses the challenges and opportunities presented by this new way of teaching history romesburg s powerful case for lgbtq inclusive education is all the more urgent in this era of anti gay book bans regressive legislation and attempts to diminish the vital role that inclusive and honest history education should play in a democratic nation

starting in louisiana in the early nineteenth century this book takes the reader on a journey through the usa and the development of their civil codes from georgia and new york civil codes traveled to california and dakota territory in the great plains they made their way to montana north dakota and south dakota by the end of the century unveiling the history of nineteenth century civil codes in the usa this book examines their origin stories circulation and usage by focusing on the social historical context of their drafting and legal concepts rocheton s work published four decades after cook s book on the american codification movement contains an exhaustive and insightful analysis of nineteenth century civil codes it thoroughly discusses their context how they were conceived discussed drafted and approved their main foreign influences and content and their practical operation aniceto

masferrer university of valencia while there is a vast corpus of literature on codification and more specifically civil codes in the civil law tradition it is much less known that six us states codified their private laws during the 19th century this book tells the fascinating story spoiler alert it s a family affair stefan vogenauer max planck institute for legal history and legal theory

in menace to the future jess whatcott traces the link between us disability institutions and early twentieth century eugenicist ideology demonstrating how the legacy of those ideas continues to shape incarceration and detention today whatcott focuses on california examining records from state institutions and reform organizations newspapers and state hospital museum exhibits they reveal that state confinement coercive treatment care neglect and forced sterilization were done out of the belief that the perceived unfitness of disabled mad and neurodivergent people was hereditary and thus posed a biological threat a so called menace to the future whatcott uncovers a history of disabled resistance to these institutions that predates disability rights movements builds a genealogy of resistance and tells a history of eugenics from below theorizing how what they call carceral eugenics informed state treatment of disabled mad and neurodivergent people a century ago whatcott shows not only how that same logic still exists in secure treatment facilities state prisons and immigration detention centers but also why it must continue to be resisted

entire neighborhoods in cities across the united states have become open air asylums drug markets and impoverished wastelands where death misery crime addiction encampments fires disease and even human waste aren t just tolerated but normalized how is this possible when billions of taxpayer dollars have been funneled into homelessness initiatives such as

housing first the truth is that the money poured into this issue from taxpayers non profits and private charities alike has mostly made homelessness worse overall and governments failures haven t just wasted taxpayer dollars it has cost lives and undermined human dignity this isn t just incompetence it s immoral and unjust and it must end in beyond homeless good intentions bad outcomes transformative solutions mary l g theroux lawrence j mcquillan adam b summers and other scholars present a better approach rooted in proven solutions this groundbreaking new book based on years of research is exactly what s needed to address the crisis with forewords from acclaimed addiction medicine specialist and tv host dr drew pinsky and licensed master social worker scott ackerson the book gathers experts on every aspect of homelessness to present a stirring condemnation of the status quo and an inspiring vision for the future drawing on real life stories cutting edge research and alternative programs with metric driven successes they make the case for individualized holistic interventions that actually work discover how housing first initiatives have become governments default response to homelessness and why they fail why permanent supportive housing psh isn t just ineffective but dangerous how political interests fuel the homelessness industrial complex resulting in ever increasing spending while falling further behind the inspiring success of real alternatives such as haven for hope in texas and union rescue mission in los angeles policy changes that would truly ease the crisis for the unhoused and housed alike without breaking the bank the difference between responsible and irresponsible forms of harm reduction and much much more at the heart of this crisis are real people those experiencing homelessness and the residents who see their neighborhoods crumble both have paid a high price for failed policies both deserve better the good news we can do better beyond homeless good intentions bad outcomes transformative solutions shows us how

a usa today bestseller it s a great book and he should be proud of it president bill clinton successful businessman activist and philanthropist and 2026 candidate for governor of california stephen j cloobeck applies an unflinching problem solver s eye to america s most pervasive challenges cloobeck built his reputation transforming dysfunctional companies at the brink of ruin into performance powerhouses in facing hard truths he focuses this proven business acumen on our most pressing concerns like immigration crime the cost of living and the coarsening of political discourse he offers sometimes tough but always sincere lessons learned over a lifetime of public and private sector experience from his first job bussing tables in a small california restaurant to his time operating a global hospitality juggernaut to helming federal public private partnerships state agencies and local organizations cloobeck s journey propelled him from busboy to boardroom in this book he relies on the action oriented principles that drove his personal success to outline a plan that will take california and america from flailing back to flourishing with a refusal to pander and a no nonsense assessment of today s most salient issues cloobeck argues our country s ability to effectively navigate the future depends on a reaffirmed commitment to integrity collaboration respect for rules and norms economic inclusivity a return to competence putting others first fostering of social trust in facing hard truths cloobeck s engaging storytelling and straight shooting proposals leave readers feeling heard respected and above all eager to set aside political differences and get back to what really matters creating an america that is more affordable liveable and opportunity rich for all

blockchain s significant advances since 2020 including a plethora of new use cases have necessitated a comprehensive revision of the first edition of this matchless resource while new chapters and topics have been added the handbook still follows the

systematic and structured approach of the first edition each contributor all of them practitioners experienced with blockchain projects within their respective areas of expertise and specific jurisdictions elucidates the implications of blockchain technology and related legal issues under such headings as the following understanding blockchain from a technological point of view regulatory aspects of blockchain smart contracts data privacy capital markets crypto asset regulation in europe the uk and the us intellectual property and antitrust law the foundational chapter on the technical aspects of blockchain technology has been meticulously expanded to elucidate the proof of stake consensus mechanism alongside fresh insights into the erc 721 token standard for non fungible tokens decentralized exchanges staking stablecoins and central bank digital currencies as blockchain law cements itself as a distinct legal field this new edition is poised to be an invaluable asset for legal practitioners in house lawyers it professionals consultancy firms blockchain associations and legal scholars at a depth that allows non it experts to understand the groundwork for legal assessments the handbook provides those charting the dynamic waters of this field of law with a compass ensuring they are well equipped to tackle the legal issues raised by the usage of blockchain technology

this book investigates contemporary us china subnational relations and considers the extent to which subnational national and international power contests inform american states strategies of internationalization approaching the subject from a constructivist perspective the book contributes to debates about the relevance of subnational diplomacy to us politics diplomacy and security it evaluates the efficacy of chinese power through influence and interference in co opting american subnational elites re framing their and the wider public s social knowledge about china and re shaping the interests norms and practices guiding relations with

china the book also identifies the limits of chinese power by exploring how a shift in dominant narratives produces new understandings of opportunities and risks associated with china featuring new empirical evidence and a novel theoretical framework this book will be a valuable resource for students of american politics and foreign relations paradiplomacy federal studies china studies and international relations

a clarion call for justice in the quest for clean energy california s salton sea region is home to some of the worst environmental health conditions in the country it is also ground zero for a new lithium gold rush a race to extract a mineral critical to the rapidly expanding electric vehicle and renewable energy storage markets with enough lithium lurking beneath the surface to provide a third of global demand who will benefit from the development of this precious resource a work of stunning analysis and reporting charging forward shows that the questions raised by lithium valley lie at the heart of the green transition weaving together movement politics federal policy and global supply chains noted experts chris benner and manuel pastor stress that extracting lithium is just a first step the real question is whether the region and the nation will address and overcome the environmental degradation labor exploitation and racial injustice that have been as much a part of the landscape as the salton sea itself what happens in lithium valley the authors argue will not stay there this tiny patch of california is a microcosm of the broad climate challenges we face understanding lithium valley today is the key to grasping the future of our economy and our planet
