a fully revised edition of the seminal classic this classic study was originally written by edward stewart in 1972 and has become a seminal work in the field of intercultural relations in this edition stewart and milton j bennett have greatly expanded the analysis of american cultural patterns by introducing new cross cultural comparisons and drawing on recent reseach on value systems perception psychology cultural anthropology and intercultural communication beginning with a discussion of the issues relative to contact between people of different cultures the authors examine the nature of cultural assumptions and values as a framework for cross cultural analysis they

then analyze the human perceptual process consider the influence of language on culture and discuss nonverbal behavior central to the book is an analysis of american culture constructed along four dimensions form of activity form of social relations perceptions of the world and perception of the self american cultural traits are isolated out analyzed and compared with parallel characteristics of other cultures finally the cultural dimensions of communication and their implications for cross cultural interaction are examined

first published in 1995 youth cultures critically studies an anthropologically neglected population the youth the book broadens the scope for analysing young people's behaviour by moving away from notions of resistance and deviance and offers a range of ethnographically based studies of different kinds of youth in varied national contexts from nepal to canada europe the solomon islands and algeria it addresses issues relating to globalisation in third world cities ethnic diversity in european cities and consumption practices and places the lives of these young people in the contexts of wider cultures youth cultures contributes to the general concern in anthropology with rewriting culture even while it seeks to close particular gaps in studies on youth culture by challenging the limitation of previous youth research and acknowledging children and young adults as agents to be respected rather than objectified this book will be invaluable reading to students of anthropology sociology education psychology and cultural studies

primarily designed for use in teacher education programs this manual provides education faculty with a resource for building multicultural education training into the teacher education curriculum chapter 1 defines terms basic to multicultural education intercultural communication and cross cultural training chapter 2 discusses the theory of intercultural communication chapter 3 outlines the history of multicultural education and focuses on linguistic diversity chapter 4 contains a discussion of the multicultural curriculum and considers possibilities for infusing existing courses with multicultural perspectives chapter 5 studies the training of teachers for multicultural education competencies reviews methods of teacher training and offers specific applications of multicultural concepts in teacher education chapter 6 lists 30 teaching strategies drawn from the cross cultural literature and adapted for teacher preservice and inservice training it also details exercises for role playing critical incidents case studies simulation and group discussion chapter 7 presents procedures for the evaluation of cross cultural training and education the manual also includes a 65 item annotated bibliography and film list cm

this book looks at the movements of immigrants and refugees and the challenges they face as they cross cultural boundaries and strive to build a new life in an unfamiliar place it focuses on the psychological dynamic underpinning of their adaptation process how their internal conditions change over time the role of their ethnic and personal backgrounds and of the conditions of the host environment affecting the process addressing these and related issues the author presents a comprehensive theory or a

big picture of the cross cultural adaptation phenomenon
