sir m monier williams embarked upon sanskrit english dictionary with the primary object of exhibiting by a lucid etymological arrangement the structure of the sanskrit language the very key stone of the science of comparative philology though all lexicographers have to rely on the work of their earlier compeers sir williams work is unique and original in its plan and execution the utility of which is seen in its repeated reprints this is not a mere aggregation of words and meanings but the fruit of a colossal industry and experience with the actual treatises in the original language on a number of subjects all the words are arranged etymologically and philologically with special reference to cognate indo european languages the author refers to several authors and extant works the work includes well over 1 80 000 words this invaluable thesaurus serves far too well the needs of researchers and lovers of sanskrit there is an elaborate and informative introduction detailing the inception and progress of this huge task successfully completed with the collaboration of devoted scholars like prof e leumann prof c cappeller and others

excerpt from a sanskrit english dictionary based upon the st petersburg lexicons with regard to the contents and arrangement of this book i have but little to add at first sight it appears to be nothing but a list of sanskrit words put in alphabetical order and confronted with their

english equivalents such a compilation little as it may seem would be much if it were made with the correctness and accuracy required by the matter whether i have succeeded in attaining this aim and rendering my book at least from this point of view useful to the class of readers for which it is destined actual experience must show i hope however it will be acknowledged that i have always endeavoured not only to put together words with words but also to give the full development and connection of meanings from their first radical origin up to the various ramifications which appear in the texts enumerated above or are of universal interest here we must of course distinguish between the old simple words and the comparatively younger derivatives and compounds which generally are easy and transparent enough to admit of an insight into their origin and growth even by the help of a simple translation this is also the reason why i abstained from giving a formal analysis of words such as would in each individual case trace the compound back to its constituent parts and the simple word to its root or stem in the first place nine tenths of all cases are so clear in themselves that even for the beginner if he only has worked his way through the euphonic rules and the elements of word formation they need no explanation whatever the last tenth on the other hand offers numerous difficulties which it would be impossible to remove without altogether changing the elementary character of this book there are moreover two excellent guides through this domain of studies Whitney's roots and Lanman's reader of which the one furnishes ample material for Sanskrit and the other for comparative etymology so that a book which in a certain degree is intended to be a completion or continuation of both may well be for the most part restricted to purely lexicographic matter about the publisher Forgotten Books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
