this book examines how one of imperial austria s principal ethnic conflicts that

between czechs and germans developed in one of the major cities during the era of industrialization and urban growth it shows how the inhabitants of prague the capital of bohemia constructed and articulated ethnic group loyalties and social solidarities over the course of the nineteenth century the german speaking inhabitants of the bohemian capital developed a group identification and defined themselves as a minority as they dealt with growing czech political and economic strength in the city and with their own sharp numerical decline in the 1910 census only seven percent of the metropolitan population claimed that they spoke primarily german the study uses census returns extensive police and bureaucratic records newspaper accounts and memoirs on local social and political life to show how the german minority and the czech majority developed demographically and economically in relation to each other and created separate social and political lives for their group members the study carefully traces the roles of occupation class religion and political ideology in the formation of german group loyalties and social solidarities the social relations which bound together the members of the german speaking minority and the social boundaries which separated them from the czech majority at the end of the nineteenth century proved to be selective and considerable contact went on across the lines in many facets of individuals everyday life as the german minority developed a shared group life what came to define them and to separate them from the czech majority was a shared austro german ethnic and national loyalty an austro german national liberal ideology the defense of common middle class and lower middle class social and political interests and a shared german public life both german speaking catholics and jews could share in the sense of german community and group solidarity provided they upheld middle class liberal values the bonds of community for the middle class and lower middle class germans in prague established in the 1860s tended to exclude german speaking wage laborers and lower middle class radical nationalists who might challenge liberal national values despite all the efforts to strengthen german community solidarity and combat assimilation of german speakers with the czech majority from the 1880s to after 1900 the organized german community could do little to prevent the absorption of working class german speakers into the czech population of the industrial districts

in september 1938 the munich agreement delivered the sudetenland to germany six months later hitler's troops marched unopposed into prague and established the protectorate of bohemia and moravia the first non german territory to be occupied by nazi germany although czechs outnumbered germans thirty to one nazi leaders were determined to make the region entirely german chad bryant explores the

origins and implementation of these plans as part of a wider history of nazi rule and its consequences for the region to make the protectorate german half the czech population and all jews would be expelled or killed with the other half assimilated into a german national community with the correct racial and cultural composition with the arrival of reinhard heydrich germanization measures accelerated people faced mounting pressure from all sides the nazis required their subjects to act and speak german while czech patriots and exiled leaders pressed their countrymen to act as 'good czechs' by destroying democratic institutions harnessing the economy redefining citizenship murdering the jews and creating a climate of terror the nazi occupation set the stage for the postwar expulsion of czechoslovakia's three million germans and for the communists' rise to power in 1948 the region bryant shows became entirely czech but not before nazi rulers and their postwar successors had changed forever what it meant to be czech or german

in march 1939 german troops entered prague the first foreign capital to be occupied by the nazis six years later in may 1945 it was the last to be liberated as hitler's reich collapsed in defeat the nazi occupation had a profound effect and paved the way for the communist dictatorship that followed after the war the entire period was deliberately distorted for political purposes the facts were misrepresented or suppressed publications and documentary films were censored witnesses were silenced the aim of this book is to restore part of the lost history of the occupation after decades of communist manipulation it provides a rare glimpse of life in prague under the german occupation from unique photographs many of them published here for the first time it also reproduces items from ration coupons and identity cards to nazi proclamations and execution lists which were part of everyday life during the german protectorate the result is an objective account of the golden city in the years when prague and its people lived in the shadow of the swastika book jacket

prague is at the core of everything both wonderful and terrible in western history but few people truly understand this city's unique culture in prague in black and gold peter demetz strips away sentimentalities and distortions and shows how czechs germans italians and jews have lived and worked together for over a thousand years

originally published in 1964 this is a scholarly study of the transfer of the german minority from czechoslovakia after world war ii to fully understand the transfer one must trace the history of its antecedents and the book does this by discussing the

significance of three decades of german czech relations the introduction outlines the geo economic and social factors which underlie the heart of the story part 1 begins in the pre 1914 period it was in the austrian part of the habsburg empire that the main tenets of national socialism were elaborated prior to world war i the nazi use of german minorities as the spearhead of a drive for hegemony was a brutal variation of an old theme the major topics which run throughout parts 2 3 are the consolidation of nazism in the former czechoslovakia the fall the czechoslovak republic and the rise of czech resistance against the process of germanization the book also discusses the czech resistance movement in some depth in the section other sources the author has included letters and interviews which enabled him to utilize the statements and views of living political figures and authorities

demetz expertly interweaves a superb account of the german authorities diplomatic financial and military machinations with a brilliant description of prague s evolving resistance and underground opposition along with his private experiences he offers the heretofore untold history of an effervescent unstoppable prague whose urbane heart went on beating despite the deportations murders cruelties and violence a prague that kept its german and czech language theaters open its fabled film studios functioning its young people in school and at work and its newspapers on press this complex continually surprising book is filled with rare human detail and warmth the gripping story of a great city meeting the dual challenges of occupation and of war book jacket

in the aftermath of world war two approximately three million sudeten germans were expelled from their homes in the former czechoslovakia because of their part in the dismemberment of the czechoslovak republic by nazi germany in 1938 39 for many years their representatives the sudeten german association attempted in vain to redress the wrong done to their people however the end of the cold war has given a new impetus to their campaign currently they attempt to block czech entry into the eu unless there is restitution of confiscated properties jürgen tampke tells the story of the sudeten germans from the beginning of their settlement seven hundred years ago in what is now the czech republic to current times
