actively engaged in military affairs and concerned especially with rescuing china's client state of korea he puts the ming in a more vigorous light detailing chinese siege warfare the development and deployment of innovative military technologies and the naval battles that marked the climax of the war he also explains the war's repercussions outside the military sphere particularly the dynamics of intraregional diplomacy within the shadow of the chinese tributary system what swope calls the first great east asian war marked both the emergence of japan's desire to extend its sphere of influence to the chinese mainland and a military revival of china's commitment to defending its interests in northeast asia swope's account offers new insight not only into the history of warfare in asia but also into a conflict that reverberates in international relations to this day
