during the last decade europe has undertaken an active and broad process of harmonisation of choice of law rules within the eu however this drastic movement towards a harmonised system has so far left aside a highly relevant issue the application by judicial and non judicial authorities of the foreign law in full contrast to the little attention so far paid to it in the eu this issue is said to be the crux of the conflict of laws it violates legal certainty and contradicts the objective of

ensuring full access to justice to all european citizens within the eu this book provides a comparative study of the existing situation in all eu member states and drafts some basic principles for a future european instrument it will become a highly useful tool for lawyers judges notaries land registries academics prosecutors etc

this volume covers a wide range of topics in the most recent debates in the philosophy of mathematics and is dedicated to how semantic epistemological ontological and logical issues interact in the attempt to give a satisfactory picture of mathematical knowledge the essays collected here explore the semantic and epistemic problems raised by different kinds of mathematical objects by their characterization in terms of axiomatic theories and by the objectivity of both pure and applied mathematics they investigate controversial aspects of contemporary theories such as neo logicist abstractionism structuralism or multiversism about sets by discussing different conceptions of mathematical realism and rival relativistic views on the mathematical universe they consider fundamental philosophical notions such as set cardinal number truth ground finiteness and infinity examining how their informal conceptions can best be captured in formal theories the philosophy of mathematics is an extremely lively field of inquiry with extensive reaches in disciplines such as logic and philosophy of logic semantics ontology epistemology cognitive sciences as well as history and philosophy of mathematics and science by bringing together well known scholars and younger researchers the essays in this collection prompted by the meetings of the italian network for the philosophy of mathematics filmat show how much valuable research is currently being pursued in this area and how many roads ahead are still open for promising solutions to long standing philosophical concerns promoted by the italian network for the philosophy of mathematics filmat
